As **StarTech.com** enters its 30th year, we've seen many new and disruptive technologies hit the market. 2015 is no different. In this issue of the Connectivity Guide our experts explore the next generation of USB connectivity as well as other exciting new technologies, such as 4K.

Whether in the boardroom, on the road, or at your workstation, keeping connected is a real challenge. We're excited to share the many solutions StarTech.com offers to maximize productivity in any situation.

We look forward to giving you the inside edge on connecting technology solutions and as always make **hard-to-find easy**.

Paul

Paul Seed
Founder & Chief Executive Officer
StarTech.com

Hard-to-find Made Easy

StarTech.com makes it **easy** to enable and enhance your tech solutions, helping you every step of the way. **Here's how:**

Identify what you need

Not sure where to start? StarTech.com's user-friendly website and Tech Advisors will point you towards the best solution to solve your connectivity problems.

Find the right part

StarTech.com's website provides comprehensive information, powerful search and exclusive tools like the ConXit Connection Wizard that make finding the right part easy.

Get it delivered fast

Get the products you need when and where you need them through StarTech.com's global distribution network and channel partners.

Use with confidence

User-friendly documentation and online resources make using our products a breeze, while innovative design maximizes reliability and performance.

What's Inside

The Connected Workstation

Saving space while maintaining full connectivity can be a tricky balance. We can help you win on both counts by integrating the right devices into your open concept office, hot desk, or busy workstation.

The StarTech.com Advantage:

- Create a flexible and efficient work environment
- Save space with optimized connectivity

Dock

1 Our wide range of **Laptop Docking Stations** includes different sizes and orientations, such as upright docks for saving space.

USB3SDOCKDD USB 3.0
TB2DOCK4KDHC 4 K Thunderbolt Desktop
USB3SMDOCKHV USB 3.0 Travel

Mount

2 Our **Articulating Monitor Arm** allows you to mount a display to the side of your desk with a wide range of adjustments, freeing up space.

ARMPIVOTE

Learn more about mounts on page 9.

Charge & Connect

3 This **USB 3.0 Hub & Charging Station** provides four hub and three charge ports. Mount the small enclosure on the wall or another surface, out of the way.

ST4300U3C3

4 This space-saving **Tablet & Phone Stand** provides three ports in a USB 3.0 hub, plus a fast charge port.

ST4300U3C1B
ST4300U3C1

Black

Improve Productivity with Multiple Monitors

Upgrade to 4K

4K Ultra HD gives you astonishing picture quality that is particularly useful for detailed work like editing video or large spreadsheets.

USB 3.0 video adapters for 4K Ultra HD

- USB32HD4K HDMI
- USB32DP4K DisplayPort

- Enable a non-4K device to connect to a 4K display.
- DisplayLink 4K Plug-and-Display certified for automatic driver installation and updates.

The same screen real estate as four 1080p monitors.

Use an existing port

If you have a spare video or USB 3.0 port, it's easy and inexpensive to connect your computer to another monitor.

I want to connect to:

My computer has this port:	VGA	DVI	HDMI	DisplayPort
Mini DisplayPort or Thunderbolt	MDP2VGA2	MDP2DVI3	MDP2HDMI	MDP2DPMF6IN
DisplayPort	DP2VGA3	DP2DVI2	DP2HDMI2	DISPLPORT6L
HDMI	HD2VGAE2	HDDVIMF8IN	HDMM6	*Refer to ConXit
Micro HDMI	MCHD2VGAE2	HDDVIMM1M	HDADFMSIN	*Refer to ConXit
Mini HDMI	MNHD2VGAE2	HDCDVIMM1M	HDACFMSIN	*Refer to ConXit
USB 3.0	USB32VGAES	USB32DVIEH	USB32HDES 1080p USB32HD4K 4K Ultra HD	USB32DPES 1080p USB32DP4K 4K Ultra HD

*You can find ConXit at www.startech.com/conxit

Connect multiple monitors to one port

You can connect multiple monitors to a single USB 3.0 or Mini DisplayPort connection on your computer.

Connect up to 3 monitors through DisplayPort or Mini DisplayPort

- MSTDP123DP DisplayPort
- MSTMDP123DP Mini DisplayPort

These MST hubs can connect up to 3 DisplayPort enabled monitors to your computer.

Computer must support

DisplayPort 1.2
MST

Connect up to 2 monitors through USB 3.0

USB32HDDVII

Connect an HDMI and a DVI-I monitor to a USB 3.0 port.

Supports:

1080p HD

USB-C

The Next Generation of Connectivity is Here!

A new connector has arrived for computers, peripherals, and mobile devices: the USB-C™ connector. Also known as USB Type-C™, it is much more than just USB! It consolidates the following functions over a single connector:

- External Displays
- Charging & Power
- USB Data

On new laptops, the innovative USB-C connector can replace DisplayPort connectors, proprietary power connectors, and bulkier traditional USB connectors. This allows for smaller, thinner, and lighter devices. Plus the USB-C connector is reversible, meaning that it works no matter which way you plug it in, saving you frustration and port damage!

Device manufacturers can choose to implement USB-C in a variety of ways. This can create challenges for IT professionals and end users connecting these new devices in existing environments. **StarTech.com can help.**

USB-C enables exciting new possibilities

Higher quality displays

Experience resolutions beyond 4K with DisplayPort over USB-C. Connect a computer to dual 4K Ultra HD displays. Enable multiple monitors with a single connector, using MST.

Docking with ease

Increase productivity with true single-cable docking. Enable display, charging, power, networking, data, and audio with one connection.

Universal charging & power

USB-C enabled laptops can be charged via the USB-C port, eliminating the need for proprietary power cords. Power & charge any USB-C enabled device with the same cable.

Designed for the future

USB-C currently supports data speeds up to USB 3.1 (10 Gbps). Designed to scale as faster data speeds evolve.

Coming in Summer 2015

Neatly Store, Mount, and Control Your Equipment

We provide equipment mounting and control solutions not only for the server room, but also for those areas that customers and the public visit, where elegance also matters. In the boardroom or the classroom, in the lobby or at your desk – or in the server room – **we can help you.**

Store

Quiet & Stylish Server Cabinet

RKQMCAB12

Store IT equipment discreetly in the office or classroom. The insulation ensures minimal noise, while the fans and airflow design ensure maximum cooling. Plus, front and rear key-locks prevent unauthorized access.

12U Server Rack adjustable depth with open frame

4POSTRACK12U

Store your servers, network, and telecommunications equipment in a sturdy 4-post rack. Offers easy-to-read markings for rack units and depth. Includes casters, levelers, and cable management hooks.

2U Server Rack Shelf sliding and vented

UNISLDSHF192

Add a vented, sliding shelf with cable management into virtually any 4-post server rack or cabinet. Adjustable mounting depths.

Mount

Articulating Mounting Arm for Two Displays

ARMDUAL

Mount two displays to the side of your desk or table with a wide range of adjustment capability. For viewing long pages or blocks of code without scrolling, the dual arm also supports landscape to portrait display rotation for either monitor.

Side by side Horizontal

Side by side Vertical | Horizontal

Side by side Vertical

Back to Back

Control

2-Port KVM Switch with Fast Switching

SV231USBDDM

Control two USB-enabled computers using a single keyboard, mouse, and a VGA monitor. Switch between devices with minimal lag through fast-switching USB Dynamic Device Mapping (DDM) technology.

The Connected Boardroom

Maximize productivity in meeting spaces by integrating the right connectivity solutions.

The StarTech.com Advantage:

- Enable quick & easy connections
- Create a professional, clutter-free environment
- Ensure compatibility with most laptops and devices

Connect & Convert

1 The Conference Table Connectivity Box reduces clutter by discreetly installing into your boardroom table. Conveniently connect laptops and other devices to displays or projectors. Provides connections for HDMI, VGA, mDP, composite AV, Ethernet and USB. **BOX4HDECP**

7 Gadgets to get you through your next presentation
— **Inc.**

2 Long-length HDMI cable
A large variety of options available including active & optical in lengths up to 100ft.

Rated for in-wall installations

3 CAT 6 Patch Cables
A complete selection of colors and lengths up to 100ft.

ETL rated for guaranteed quality & reliability

Extend

4 Boost HDMI signal s up to 330 ft/100m with this **HDMI over Cat5e/6 Extender Kit**. **ST121HDBTPW**

Includes mounting brackets

Charge

5 Keep mobile devices charged during meetings using a **7 Port USB Charging Station**. **ST7CU35122**

Share

6 Present content from your smartphone, tablet, or laptop on any HDMI display with this **Wireless Display Adapter for Mobile Devices**. **WiFi2HDMC**

Make Your Signage Vivid

Digital signage is a **vivid** and easy-to-update way to display content such as text, information, images, and animation. You can use digital signage in offices, retail stores, public spaces, educational environments — **virtually anywhere.**

We offer many products to help you set up and connect your digital signage, including video wall solutions, switches, and wired and wireless extenders to keep your media sources out of sight. We can help you deliver your message in 4K Ultra HD for the highest resolution and clearest images, which is particularly valuable for larger signage.

Catch up on the latest 4K trends

4KHUB recently interviewed StarTech.com Senior Product Manager, **John Mardinly** about the future of 4K technology.

Extenders & Video Walls

Video Wall for up to 4 Displays

VS424HDPIP

Share and switch four distinct HDMI audio/video signals between four displays. Show multiple signals on the same display with Picture-and-Picture (PAP), or mix and match signals across multiple displays. Use this with our other products for more advanced multi-source and multi-panel video walls that you can control over IP.

Extender and Video Wall for Many Displays

ST12MHDLAN

As an extender, send an audio/video signal to up to 100 displays on a single managed Gigabit network. Additional ST12MHDLANRX receivers required (sold separately). For video walls, use multiple transmitters and receivers to mix and match up to 64 signals on 64 displays.

Multiple Displays & 4K

4K A/V Splitter for 2 Displays

ST122HD4KU

Send a 4K Ultra HD signal to 2 displays for beautiful and clear signage.

Cables & Accessories

We offer a full range of cables and adapters, including HDMI, VGA, Network, & DisplayPort. We also offer a full range of extenders, splitters, and switches.

High Speed HDMI Cables

It's all about selection.

Different lengths, colors, & connectors available

www.startech.com/cables

Where is 4K most implemented — what will take hold next year or after?

A. 4K is currently widely used for video/media production. Over the next year or two we should begin to see 4K video content more publicly available through television broadcasts and home video i.e Blu-ray discs. With most video production being done in 4K, it's the distribution and delivery that will need to be upgraded.

What's going on from your perspective with all the latest tech and its adoption?

A. The new technology is great for computer users looking for higher resolutions, consumer electronics (TV and home video), and video production/editing. We expect the technology to become more mainstream in homes, corporate offices, retail (digital signage), and healthcare. Once the technology becomes mainstream this will have an increased demand in 4K video and content. Video production in 4K will become a standard.

Where do you see the future of 4K heading?

A. 4K is coming quickly and we believe it will be widely adopted rapidly by viewers, video professionals, and broadcasting.

Maximize your Network

With more and more devices connected to the Internet, the ability to extend your network, find open ports, and provide power becomes a constant concern. We offer a variety of products to upgrade your network connections on devices and expand your network indoors, between buildings, and outdoors.

Network Connectivity Identifier

Where you want to connect	What you want to do	How you can do it	Why choose this technology
<p>Indoors Wired</p>	Add 10-gigabit Ethernet to your computer with a PCI Express card.	10-Gigabit Network Card ST10000SPEX	Provides increased bandwidth using existing Cat 6a cabling, avoiding costly fiber upgrades. Features significantly reduced power consumption compared to similar cards.
	Add a Gigabit Ethernet port and a USB 3.0 hub port to your Thunderbolt equipped computer.	Thunderbolt to Gigabit Ethernet + USB 3.0 Adapter TB2USB3GE	Connect to a wired, Gigabit Ethernet connection where wireless signals are limited or unavailable.
	Network up to five Ethernet devices through an energy-efficient gigabit switch.	5-Port Gigabit Switch DS51002	Designed for desktop or wall-mount installations.
<p>Indoors Wireless</p>	Add Wireless-AC connectivity to a computer.	USB 3.0 Network Adapter for Dual-band Wireless AC USB867WAC22	Provides exceptional speed and range when paired with an 802.11ac router.
	Create an indoor Wi-Fi® hotspot from an existing wired connection.	In-Wall Wireless Access Point for 802.11b/g/n AP300WN2X2W	Add a Wireless-N access point and two integrated RJ45 LAN and phone ports for wired network devices.
	Create multiple temporary accounts for guests to access your secure wireless network.	Guest Access Point & Account Generator for Wireless N R300WN22GA	Creates multiple temporary accounts for guests to access your secure wireless network, at the touch of a button. Features an integrated display.
<p>Between Buildings</p>	Extend a Gigabit Ethernet connection between buildings	Gigabit Ethernet to LC Fiber Converter 550m ET91000LC2	Delivers fast and reliable network access at longer distances than copper-based networks.
<p>Outdoors</p>	Add Wi-Fi to an outdoor area.	Outdoor Access Points for a Wireless Network R300WN22MOD 2.4GHz – IP67 R300WN22MOD5 5GHz – IP67 R300WN22OP5 5GHz – long range	Weather-resistant enclosure. Includes pole and wall-mounting options. Power-over-Ethernet (PoE) means that you can install the access point where power is unavailable and also power other PoE devices.

Make the Most of SSD Storage

Solid State Drive (SSD) storage gives you fast performance, a small form factor, quiet operation, and a long life span. We can help you connect to SSD in different setups, carry it on the go, and add it to your computers, devices, and server rooms.

USB 3.0 Enclosure for SATA Storage

S2510BMU33

Turn any 2.5in SATA drive into an external drive. USB Attached SCSI Protocol (UASP) enables transfer speeds up to 70% faster than conventional USB 3.0. Aluminum housing. **No power adapter required.**

eSATA and USB 3.0 Duplicator and Dock for SATA Drives

SDOCK2U33RE

Clone a drive without a computer connection or dock the drives over USB 3.0 or eSATA for easy access.

“Offers the fastest sector-by-sector drive cloning available”
 — NETWORKWORLD

70% faster

SATA to USB 3.0 Cable

USB3S2SAT3CB

Connect a 2.5in SATA drive to your computer. UASP enables transfer speeds up to 70% faster than conventional USB 3.0.

Dual 2.5in to 3.5in Bracket for SATA Drives

BRACKET25X2

Mount two 2.5in SATA drives in a single 3.5in drive bay. Cabling included. Solid steel construction.

2-Port SATA Card for a HyperDuo RAID Array

PEXMSATA3422

Use this PCI Express card to connect additional SATA drives. Supports HyperDuo™ RAID technology so that you can combine SSD performance with HDD capacity.

Connect, Charge & Sync Your Mobile Devices

Make sure that you have enough power for your device wherever you are. We have solutions for charging at **work, at home, on the go, or in the car.**

Charge Cables

Lightning Cable for Apple Devices

USBLT3MB

This long, black cable is colored to match your black devices and enables long-range charging and syncing. Ideal for when you're on the move and need to access your device while it's charging.

Made for
iPod iPhone iPad

3m | 10ft

Car Chargers

2-Port Car Charger - USB and Built-in Micro-USB Cable

USBUB2PCARB

Charge your Micro-USB device with the integrated Micro-USB cable, and charge a second device with the USB port.

2-Port Car Charger - USB and Built-in Lightning Cable

USBLT2PCARW

Charge your Lightning equipped Apple device with the integrated Lightning cable, and charge a second device with the USB port.

Made for
iPod iPhone iPad

Travel Chargers

2-Port USB Wall Charger for International Travel

USB2PACBK

Charge your tablet and phone simultaneously. Includes interchangeable power plugs for different countries.

Compact Design

1A USB 2.0 Port

2.4A USB 2.0 Port

3-in-1 Charge Cable for Apple and Micro USB

LTADUB1MB

Charge or sync your iPhone, iPod, iPad, or Micro-USB device using a single cable.

Apple: Lightning | 30-pin Dock devices
Android: Micro USB

Made for
iPod iPhone iPad

Home & Office Chargers

“A truly must-have gadget”
— RuggedPCReview.com

7-Port Charging Station for USB Devices

ST7CU35122

Set up a dedicated USB charging station in a boardroom or helpdesk environment. Provides five 1A and two 2A ports. Includes a surface and wall-mount bracket for secure mounting.

4-Port USB 3.0 Hub Plus 3 USB Charging Ports

ST4300U3C3

Add multi-device connectivity and dedicated charging in a single product.

Includes:
Surface & wall-mount bracket

1A USB 2.0 Port

2.4A USB 2.0 Port

Have the right charge cables for every situation

We offer a wide range of cables, constructed for maximum quality and durability. We offer different lengths, connectors, colors, and adapters.

Upgrade Your Device's Connectivity

Whether you're on the road or at your desk, we can help you be prepared and connect your computer or tablet to whatever you need.

Upgrade your Ultrabook

USB 3.0 Laptop Docking Station with 4K DisplayPort, HDMI
USB3DOCKHDPC

Add DisplayPort, HDMI, 1x USB 3.0 Fast-Charge + Sync, 3x USB 3.0, Gigabit Ethernet, and audio to your Ultrabook™ or MacBook® through a USB 3.0 cable

Display / Ethernet Kit for New Lenovo® X1 Carbon 2
LENX1MDPUGBK

Connect your Ultrabook™ to a VGA projector or display and add Ethernet + 1 USB 3.0 port, in a convenient adapter bundle

With our products, you can:

Dock

At your main desk

Turn your laptop into an office or home workstation using just a single cable

Add

USB ports

Make sure that you have enough USB ports for your storage, peripherals, and other devices while on the road

Expand

Your storage space

Access large amounts of data at high speed (20Gbps for Thunderbolt 2 products)

Connect To

VGA

Connect to most older monitors and projectors

HDMI

Connect to recent monitors, projectors, and flat screen TVs

Wired Gigabit Ethernet Via RJ45

Transfer files fast (at 1000 Mbps) with more security and reliability than Wi-Fi®

Upgrade your MacBook

Creative professionals such as video editors have extreme demands for external storage, requiring both high capacity and high speed.

Our Thunderbolt™ products meet these demands and also look great next to your MacBook.

Thunderbolt 2™ 4-Bay 3.5" SATA Hard Drive Enclosure with RAID
