### System Requirements

- Intel Pentium® 100MHz equivalent or higher processor
- RAM: 64MB minimum
- 10MB of disk space
- Available USB 2.0 port
- Microsoft Windows® 2000/XP/Server 2003/Vista or Mac OS® 10.2 or later

### Installation

1. Plug either end of the PCMACLINK adapter cable into the USB port of one of the computers you wish to transfer files between.
2. The computer will then attempt to automatically install the PCMACLINK and then mount a disk image on the computer system.
3. Launch the EasySuite program.
4. Plug the other end of the PCMACLINK adapter cable into the USB port of a second computer.
5. The second computer will then attempt to automatically install the PCMACLINK and then mount a disk image on the computer system.
6. Launch the EasySuite program.

### How to Use

With the EasySuite program running on both computer systems, it will allow you to view both the local and remote computers file system.

Files can be transferred back and forth between computers by simply dragging and dropping files, or right-clicking on the file and selecting "Copy" and then right-clicking and selecting "Paste" on the destination location.

This link can be established between PC and PC, or PC and Mac, or Mac and Mac computer systems.
