

## Quick Setup Guide

### Introduction

Thank you for purchasing a StarTech.com 1U rackmount console. This product allows you to manage one or more rack-mounted computers using an integrated keyboard, mouse, and 15" TFT screen that slides into a compact 1U of rack space when not in use.

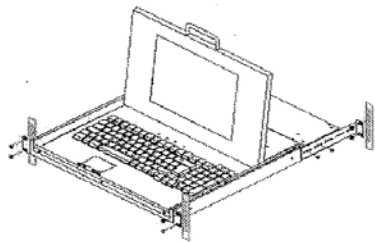

### Package Contents

Your RACKCONS product should include the following:

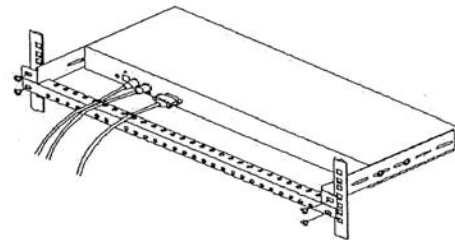

- RACKCONS unit (1)
- Power adapter (1)
- Power cord (1)
- KVM cable (1)
- Cable management bracket (1)
- Set of keys (1)
- Quick Setup Guide (1)

### Installation

The RACKCONS is designed to integrate easily into any standard rack and works with PS/2-based KVMs and computers.

Place the RACKCONS unit into your rack and secure it with screws and nuts approved by the manufacturer of your rack at the points noted in the diagram (front and rear).

For an organized installation, you may also wish to install the cable management bracket (optional). Install the bracket on the rear posts of your rack or enclosure immediately behind the RACKCONS with the notched openings orientated to the top of the cabinet. You can then run the KVM and other cables through the bracket.

### Connecting the Console

Once you have installed the RACKCONS in your rack, connect one end of the KVM cable to the keyboard, mouse, and video ports on the back of the RACKCONS. Connect the opposite end of the cable to the console ports of a KVM (most common) or to the keyboard, mouse, and video ports on the back of a computer. Connect the power adapter to the port on the back of the RACKCONS; connect the opposite end to a power strip or other suitable power source.

### Using the Console

You change the setting on the console using the following controls:

**LCD I/O:** Turns the display on (green LED) and off (red LED)

**MENU and +/-:** Activates the on-screen settings menu, and allows to you choose/adjust options.

**AUTO:** Automatically configures the LCD display to the optimal settings.

The screen will automatically power off 3 to 5 seconds after the lid is closed. The console keyboard also includes a set of quick-access keys (Web, e-mail, etc.) that you can use if supported by the operating system on the computer(s) connected to the console.

### Support, Warranty and Compliance Statements

StarTech.com's lifetime technical support is an integral part of our commitment to provide industry-leading solutions. If you ever need help with your product, visit

[www.startech.com/support](http://www.startech.com/support) and access our comprehensive selection of online tools, documentation, and downloads. This product is backed by a one-year warranty. In addition, StarTech.com warrants its products against defects in materials and workmanship for the periods noted, following the initial date of purchase. During this period, the products may be returned for repair, or replacement with equivalent products at our discretion. The warranty covers parts and labor costs only. StarTech.com does not warrant its products from defects or damages arising from misuse, abuse, alteration, or normal wear and tear.

#### Limitation of Liability

In no event shall the liability of StarTech.com Ltd. and StarTech.com USA LLP (or their officers, directors, employees or agents) for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of or related to the use of the product exceed the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.

#### FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna; Increase the separation between the equipment and receiver; Connect the equipment into an outlet on a circuit different from that to which the receiver is connected; Consult the dealer or an experienced radio/TV technician for help.
