FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Use of Trademarks, Registered Trademarks, and other Protected Names and Symbols

This manual may make reference to trademarks, registered trademarks, and other protected names and/or symbols of third-party companies not related in any way to StarTech.com. Where they occur these references are for illustrative purposes only and do not represent an endorsement of a product or service by StarTech.com, or an endorsement of the product(s) to which this manual applies by the third-party company in question. Regardless of any direct acknowledgement elsewhere in the body of this document, StarTech.com hereby acknowledges that all trademarks, registered trademarks, service marks, and other protected names and/or symbols contained in this manual and related documents are the property of their respective holders.

Introduction

Thank you for purchasing an InfoSafe USB 2.0 Dual 3.5" SATA JBOD hard drive enclosure. The perfect solution for maximizing add-on storage capability, SAT3520U2 allows two 3.5" SATA / SATA II drives to be installed within the enclosure for operation as two distinct drives or as one large (concatenated) drive - making it ideal for a broad range of applications.

Features

- Supports almost any Universal fitting for 3.5" SATA I/II HDD hard drives
- Hot swappable, with USB plug and play interface
- Backward compatible with USB version 1.1
- Easily configured for drives to operate under JBOD mode, or BIG mode (concatenated)

Package contents

This package should contain:

- 1 x External Enclosure
- 1 x Instruction Manual
- 1 X Mounting Stand
- 1 x Power Adapter
- 1 x Screw Kit
- 1 x USB Cable

Hardware Guide

Front Panel

Rear Panel

Installation

Installing Drives in the Enclosure

1. Remove the screws holding the rear panel in place, then slide the rear panel out from the enclosure:

2. Place the 3.5" SATA hard drive into the tray, then slide it forward until the drive interface is firmly connected to the SATA connector on SAT3520U2.

Repeat this step with the second 3.5" SATA hard drive, using the remaining tray.

- Secure the drives to the Enclosure tray, using the provided screws:

- Replace the Enclosure tray (with drives attached) into the Enclosure:

- Secure the Enclosure tray within the Enclosure, using the screws removed in step 1:

Operating Modes

Once the drives have been installed in the Enclosure, the Enclosure can be connected to the host computer using a USB 2.0 cable (included). When SAT3520U2 is powered following installation, you may wish to format the drives as necessary. SAT3520U2 supports two methods of operation, JBOD and BIG:

JBOD Mode (Default)

This mode of operation enables each hard drive to be seen separately as single drives. Drives can be formatted as they would if installed separately.

BIG Mode

This configuration concatenates the installed hard drives as a single large volume; Hard drives A and B, for example, are combined into a storage capacity that is equal to the sum of each of the physical hard drives (A and B).

To use BIG Mode, turn off the power to the SAT3520U2 Drive enclosure, then open the casing enough to expose the small switch located just above the top SATA Power/Data Connector. Press the switch to the right, for SAT3520U2 to enter BIG Mode, then replace the enclosure cover and restore power to the enclosure. The operating system will now display a single drive.

Please note that the drives may need to be formatted in the Windows Disk Management Utility, before they are properly recognized as a single drive.

Press the switch to the right to enter BIG mode.

Specifications

Connectors	Internal: 2 x SATA 7-pin (Data) 2 x SATA 15-pin (Power) External: 1 x USB (type B) 2.0 1 x 12V Power
Maximum Data Transfer Rate	480Mbps
Regulatory Certifications	CE/FCC/RoHS/TUV/UL
Product Weight	1 kg (2.22 lb)
Product Dimensions (W x H x L)	74mm (2.91") x 75mm (2.95") x 199mm (7.83")
Power	12V DC 4.2Amp

Technical Support

StarTech.com's lifetime technical support is an integral part of our commitment to provide industry-leading solutions. If you ever need help with your product, visit www.startech.com/support and access our comprehensive selection of online tools, documentation, and downloads.

Warranty Information

This product is backed by a one year warranty. In addition, StarTech.com warrants its products against defects in materials and workmanship for the periods noted, following the initial date of purchase. During this period, the products may be returned for repair, or replacement with equivalent products at our discretion. The warranty covers parts and labor costs only. StarTech.com does not warrant its products from defects or damages arising from misuse, abuse, alteration, or normal wear and tear.

Limitation of Liability

In no event shall the liability of StarTech.com Ltd. and StarTech.com USA LLP (or their officers, directors, employees or agents) for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of or related to the use of the product exceed the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.

StarTech.com has been making "hard-to-find easy" since 1985, providing high quality solutions to a diverse IT and A/V customer base that spans many channels, including government, education and industrial facilities to name just a few. We offer an unmatched selection of computer parts, cables, A/V products, KVM and Server Management solutions, serving a worldwide market through our locations in the United States, Canada, the United Kingdom and Taiwan.

Visit **www.startech.com** today for complete information about all our products and to access exclusive interactive tools such as the Cable Finder, Parts Finder and the KVM Reference Guide. StarTech.com makes it easy to complete almost any IT or A/V solution. Find out for yourself why our products lead the industry in performance, support, and value.
