8 Must-Have Gadgets for Road Warriors

Maximize Your Network

Neatly Store, Mount, and Control Your Equipment
StarTech.com makes it easy to enable and enhance your tech solutions, helping you every step of the way. Here’s how:

### Identify what you need

Not sure where to start? StarTech.com’s user-friendly website and Tech Advisors will point you towards the best solution to solve your connectivity problems.

### Find the right part

StarTech.com’s website provides comprehensive information, powerful search and exclusive tools like the ConXit Connection Wizard that make finding the right part easy.

### Get it delivered fast

Get the products you need when and where you need them through StarTech.com’s global distribution network and channel partners.

### Use with confidence

User-friendly documentation and online resources make using our products a breeze, while innovative design maximizes reliability and performance.

**MESSAGE FROM THE CEO**

Paul Seed  
Founder & Chief Executive Officer  
StarTech.com

As StarTech.com enters its 30th year, we’ve seen many new and disruptive technologies hit the market. 2015 is no different. In this issue of the Connectivity Guide our experts explore the next generation of USB connectivity as well as other exciting new technologies, such as 4K.

Whether in the boardroom, on the road, or at your workstation, keeping connected is a real challenge. We’re excited to share the many solutions StarTech.com offers to maximize productivity in any situation.

We look forward to giving you the inside edge on connecting technology solutions and as always make hard-to-find easy.

---

8 Must-Have Connectivity Gadgets for Road Warriors

Be prepared when you travel by bringing all the necessary accessories to stay connected and productive.

Convert
1. This handy 3-in-1 AV Adapter ensures presentations go smoothly by connecting laptops to all popular types of projectors and monitors.
   - MDP2VGDVHDW
   - MDP2VGDVHD
   - Supports HDMI, VGA, and DVI inputs in a Mini DisplayPort source

2. This Compact HDMI to VGA Adapter connects your laptop to VGA monitors and projectors.
   - HD2VGAMICRO

Dock
3. Transform any laptop into a powerful workstation and add the ports you’re missing with this USB 3.0 Travel Dock for Laptops.
   - USB3MDOCKHV

Connect
4. Create a portable wireless hotspot for all your Wi-Fi enabled devices while traveling with the Portable Wireless Travel Router.
   - RIS50WNXIT

5. Add Gigabit Ethernet capability to your laptop with this USB 3.0 to Gigabit Ethernet Adapter. Features an integrated USB 3.0 pass-through port.
   - USB31000SPTB
   - USB31000SPTW

Charge
6. Fast charge mobile devices from your laptop’s USB 2.0 port with this Fast Charging Adapter.
   - USBB2CHAQP

7. Charge your tablet and phone simultaneously while traveling internationally with this 2-Port USB Wall Charger.
   - USB2PACBK
   - USB2PACWH

8. Charge two mobile devices simultaneously on the road with this Dual Port Car Charger equipped with a USB port.
   - USB2PCAPWH
   - USB2PCAPRB

Dock & Charge
9. Use this USB 3.0 Hub & Charging Station to charge two devices simultaneously.
   - USB3HUBCHG

10. Charge and sync most mobile devices anywhere you go with this All-in-One Apple Lightning and Micro-USB Cable.
    - LTB1MBK

View the full selection of Road Warrior solutions at: www.startech.com/roadwarrior

The StarTech.com Advantage:
• Create a flexible and efficient work environment
• Save space with optimized connectivity

Dock
1. Our wide range of Laptop Docking Stations includes different sizes and orientations, such as upright docks for saving space.
   - USB31000U3C3
   - TB2DOCK4KDHC
   - USB3MDOCKHV

Mount
2. Our Articulating Monitor Arm allows you to mount a display to the side of your desk with a wide range of adjustments, freeing up space.
   - ARMPIVOTE

Dock & Charge
3. This Portable Wireless Travel Router provides four USB and three charge ports.
   - ST4300U3C3
   - ST4300U3C1

View the full selection of workstation solutions at: www.startech.com/workstation

Dock & Charge
4. The USB 3.0 Hub & Charging Station provides four USB and three charge ports.
   - ST4300U3C3

5. This space-saving Tablet & Phone Stand provides three ports in a USB 3.0 hub, plus a fast charge port.
   - LTUB1MBK

Saves money on expensive Wi-Fi in hotels.

Saves money on expensive Wi-Fi in hotels.

Saves money on expensive Wi-Fi in hotels.

Saves money on expensive Wi-Fi in hotels.
Improve Productivity with Multiple Monitors

Use an existing port
If you have a spare video or USB 3.0 port, it’s easy and inexpensive to connect your computer to another monitor.

My computer has this port:

- **Mini DisplayPort or Thunderbolt**
  - DisplayPort
  - HDMI
  - Micro HDMI
  - Mini HDMI
  - USB 3.0

I want to connect to:

- **VGA**
- **DVI**
- **HDMI**
- **DisplayPort**

Upgrade to 4K
4K Ultra HD gives you astonishing picture quality that is particularly useful for detailed work like editing video or large spreadsheets.

USB 3.0 video adapters for 4K Ultra HD
- **USB32HD4K**
- **USB32DP4K**

- Enable a non-4K device to connect to a 4K display
- DisplayLink 4K Plug-and-Display certified for automatic driver installation and updates

Connect multiple monitors to one port
You can connect multiple monitors to a single USB 3.0 or Mini DisplayPort connection on your computer.

Connect up to 3 monitors through DisplayPort or Mini DisplayPort
- **MSTDP123DP**
- **MSTMDP123DP**

These MST hubs can connect up to 3 DisplayPort enabled monitors to your computer.

Connect up to 2 monitors through USB 3.0
- **USB32HDGUI**

Connect an HDMI and a DVI-I monitor to a USB 3.0 port.

*You can find ConXit at [www.startech.com/conxit](http://www.startech.com/conxit)*
A new connector has arrived for computers, peripherals, and mobile devices: the USB-C™ connector. Also known as USB Type-C™, it is much more than just USB! It consolidates the following functions over a single connector:

- **USB Data**
- **Charging & Power**
- **External Displays**

### Neatly Store, Mount, and Control Your Equipment

We provide equipment mounting and control solutions not only for the server room, but also for those areas that customers and the public visit, where elegance also matters. In the boardroom or the classroom, in the lobby or at your desk – or in the server room – we can help you.

#### Store

**Quiet & Stylish Server Cabinet**  
RKQMCAB12  
Store IT equipment discreetly in the office or classroom. The insulation ensures minimal noise, while the fans and airflow design ensure maximum cooling. Plus, front and rear key-locks prevent unauthorized access.

**12U Server Rack**  
adjustable depth with open frame  
4POSTRACK12U  
 Designed to scale as faster data speeds evolve

**2U Server Rack Shelf**  
sliding and vented  
UNISLDSHF192  
Add a vented, sliding shelf with cable management hooks.

#### Mount

**Articulating Mounting Arm for Two Displays**  
ARMDUAL  
Mount two displays to the side of your desk or table with a wide range of adjustment capability. For viewing long pages or blocks of code without scrolling, the dual arm also supports landscape to portrait display rotation for either monitor.

#### Control

**2-Port KVM Switch with Fast Switching**  
SV231USBDDM  
Control two USB-enabled computers using a single keyboard, mouse, and a VGA monitor. Switch between devices with minimal lag through fast-switching USB Dynamic Device Mapping (DDM) technology.

For our full range of USB-C solutions please visit: [www.startech.com/usb-c](http://www.startech.com/usb-c)

For our full range of server management solutions please visit: [www.startech.com/server-management](http://www.startech.com/server-management)
The Connected Boardroom
Maximize productivity in meeting spaces by integrating the right connectivity solutions.

The StarTech.com Advantage:
• Enable quick & easy connections
• Create a professional, clutter-free environment
• Ensure compatibility with most laptops and devices

Connect & Convert

1. The Conference Table Connectivity Box reduces clutter by discreetly installing into your boardroom table. Conveniently connect laptops and other devices to displays or projectors. Provides connections for HDMI, VGA, mDP, composite AV, Ethernet and USB. BOX4HDECP

2. Long-length HDMI cable: A large variety of options available including active & optical in lengths up to 100ft.

3. CAT 6 Patch Cables: A complete selection of colors and lengths up to 100ft.

4. Extend HDMI signal up to 330 ft/100m with the HDMI over Cat5e/6 Extender Kit. ST121HDBTPW

5. Charge: Keep mobile devices charged during meetings using a 7 Port USB Charging Station. ST7EU35122

6. Share: Present content from your smartphone, tablet, or laptop on any HDMI display with this Wireless Display Adapter for Mobile Devices. WIFI2HDMC

Digital signage is a vivid and easy-to-update way to display content such as text, information, images, and animation. You can use digital signage in offices, retail stores, public spaces, educational environments — virtually anywhere.

We offer many products to help you set up and connect your digital signage, including video wall solutions, switches, and wired and wireless extenders to keep your media sources out of sight. We can help you deliver your message in 4K Ultra HD for the highest resolution and clearest images, which is particularly valuable for larger signage.

Make Your Signage Vivid

Digital signage is a vivid and easy-to-update way to display content such as text, information, images, and animation. You can use digital signage in offices, retail stores, public spaces, educational environments — virtually anywhere.

We offer many products to help you set up and connect your digital signage, including video wall solutions, switches, and wired and wireless extenders to keep your media sources out of sight. We can help you deliver your message in 4K Ultra HD for the highest resolution and clearest images, which is particularly valuable for larger signage.

Extenders & Video Walls

Video Wall for up to 4 Displays
VS42HDP
Share and switch four distinct HDMI audio/video signals between four displays. Show multiple signals on the same display with Picture-and-Picture (PnP), or mix and match signals across multiple displays. Use this with our other products for more advanced multi-source and multi-panel video walls that you can control over IP.

Extender and Video Wall for Many Displays
ST12MHDLAN
As an extender, send an audio/video signal to up to 100 displays on a single managed Gigabit network. Additional ST12MHDLARPs required (sold separately). For video walls, use multiple transmitters and receivers to mix and match up to 64 signals on 64 displays.

Multiple Displays & 4K

4K A/V Splitter for 2 Displays
ST122HD4KU
Send a 4K Ultra HD signal to 2 displays for beautiful and clear signage.

Cables & Accessories

We offer a full range of cables and adapters, including HDMI, VGA, Network, & DisplayPort. We also offer a full range of extenders, splitters, and switches.

High Speed HDMI Cables
SKU Shown: HDMM50 | HDMM6
High-Resolution VGA Cables
SKU Shown: MXT101MMHQ50 | MXT101MMHQ
Network Cables
SKU Shown: S45PATCH100B

Catch up on the latest 4K trends

Where is 4K most implemented — what will take hold next year or after?
A. 4K is currently widely used for video/media production. Over the next year or two we should begin to see 4K video content more publicly available through television broadcasts and home video i.e. Blu-ray discs. With most video production being done in 4K, it’s the distribution and delivery that will need to be upgraded.

Where do you see the future of 4K heading?
A. 4K is coming quickly and we believe it will be widely adopted rapidly by viewers, video professionals, and broadcasting.

What’s going on from your perspective with all the latest tech and its adoption?
A. The new technology is great for computer users looking for higher resolutions, consumer electronics (TV and home video), and video production/editing. We expect the technology to become more mainstream in homes, corporate offices, retail (digital signage), and healthcare. Once the technology becomes mainstream this will have an increased demand in 4K video and content. Video production in 4K will become a standard.

4K is coming quickly and we believe it will be widely adopted rapidly by viewers, video professionals, and broadcasting.

Where do you see the future of 4K heading?
A. 4K is currently widely used for video/media production. Over the next year or two we should begin to see 4K video content more publicly available through television broadcasts and home video i.e. Blu-ray discs. With most video production being done in 4K, it’s the distribution and delivery that will need to be upgraded.
With more and more devices connected to the Internet, the ability to extend your network, find open ports, and provide power becomes a constant concern. We offer a variety of products to upgrade your network connections on devices and expand your network indoors, between buildings, and outdoors.

Make the Most of SSD Storage

Solid State Drive (SSD) storage gives you fast performance, a small form factor, quiet operation, and a long life span. We can help you connect to SSD in different setups, carry it on the go, and add it to your computers, devices, and server rooms.

Network Connectivity Identifier

What you want to connect | What you want to do | How you can do it | Why choose this technology
--- | --- | --- | ---
Indoors Wired | Add a Gigabit Ethernet port and a USB 3.0 hub to your Thunderbolt equipped computer | Thunderbolt to Gigabit Ethernet + USB 3.0 Adapter TB2USB3GE | Connect to a wired Gigabit Ethernet connection where wireless signals are limited or unavailable.
| Network up to five Ethernet devices through an energy-efficient gigabit switch | 5-Port Gigabit Switch DS5GIS2 | Designed for desktop or wall mount installations.

Indoors Wireless | Add Wireless-AC connectivity to a computer. | USB 3.0 Network Adapter for Dual-band Wireless AC USBElinkyAC2 | Provides exceptional speed and range when paired with an 802.11ac router.
| Create an indoor Wi-Fi® hotspot from an existing wired connection. | In-Wall Wireless Access Point for 802.11ac AP2000IW2AC2W | Add a Wireless-N access point and two integrated 802.11N LAN and phone ports for wired network devices.
| Create multiple temporary accounts for guests to access your secure wireless network. | Guest Access Point & Account Generator for Wireless N R300WN22AGA | Creates multiple temporary accounts for guests to access your secure wireless network, at the touch of a button. Features an integrated display.

Between Buildings | Extend a Gigabit Ethernet connection between buildings. | Gigabit Ethernet to LC Fiber Converter 550m ET91000LC2 | Delivers fast and reliable network access at longer distances than copper-based networks.

Outdoors | Add Wi-Fi® to an outdoor area | Outdoor Access Points for a Wireless Network R300WN22OP5 | Weather resistant enclosures. Includes pole and wall mounting options. Power-over-Ethernet (PoE) means that you can install the access point where power is unavailable and also power other PoE devices.

USB 3.0 Enclosure for SATA Storage

SATA to USB 3.0 Cable

USB3525SAT3CB

Connect a 2.5in SATA drive to your computer. USB Attached SCSI Protocol (UASP) enables transfer speeds up to 70% faster than conventional USB 3.0.

eSATA and USB 3.0 Duplicator and Dock for SATA Drives

SSDCKU33RRE

Clone a drive without a computer connection or dock the drives over USB 3.0 or eSATA for easy access.

Offers the fastest sector-by-sector performance available.

Make sure that you have enough power for your device wherever you are. We have solutions for charging at work, at home, on the go, or in the car.

Connect, Charge & Sync
Your Mobile Devices

Charge Cables

Lightning Cable for Apple Devices
USBLT3MB
This long, black cable is colored to match your black devices and enables long-range charging and syncing. Ideal for when you're on the move and need to access your device while it's charging.

Car Chargers

2-Port Car Charger - USB and Built-in Micro-USB Cable
USBUB2PCARB
Charge your Micro-USB device with the integrated Micro-USB cable, and charge a second device with the USB port.

Travel Chargers

2-Port USB Wall Charger for International Travel
USB2PACBK
Charge your tablet and phone simultaneously. Includes interchangeable power plugs for different countries.

Home & Office Chargers

7-Port Charging Station for USB Devices
ST7CU3512
Set up a dedicated USB charging station in a boardroom or helpdesk environment. Provides five 1A and two 2A ports. Includes a surface and wall-mount bracket for secure mounting.

Have the right charge cables for every situation
We offer a wide range of cables, constructed for maximum quality and durability. We offer different lengths, connectors, colors, and adapters.

Upgrade Your Device’s Connectivity

Whether you’re on the road or at your desk, we can help you be prepared and connect your computer or tablet to whatever you need.

Upgrade your Ultrabook

With our products, you can:

- **Dock**
  - Connect your Ultrabook™ to a VGA projector or display and add Ethernet + 1 USB 3.0 port, in a convenient adapter bundle

- **Add**
  - Add DisplayPort, HDMI, 1x USB 3.0 Fast-Charge + Sync, 3x USB 3.0, Gigabit Ethernet, and audio to your Ultrabook™ or MacBook™ through a USB 3.0 cable

- **Expand**
  - Access large amounts of data at high speed (up to 1000 Mbps) with more security and reliability than Wi-Fi®

- **At your main desk**
  - Turn your laptop into an office or home workstation using just a single cable

- **USB ports**
  - Make sure that you have enough USB ports for your storage, peripherals, and other devices while on the road

- **Your storage space**
  - Access large amounts of data at high speed (up to 1000 Mbps) with more security and reliability than Wi-Fi®

- **Connect to**
  - VGA
    - Connect to most older monitors and projectors
  - HDMI
    - Connect to recent monitors, projectors, and flat screen TVs
  - Wired Gigabit Ethernet
    - Transfer files fast (at 1000 Mbps) with more security and reliability than Wi-Fi®
