Made Easy

StarTech.com makes it **easy** to enable and enhance your tech solutions, helping you every step of the way. **Here's how:**

As **StarTech.com** enters its 30th year, we've seen many new and disruptive technologies hit the market. 2015 is no different. In this issue of the Connectivity Guide our experts explore the next generation of USB connectivity as well as other exciting new technologies, such as 4K.

Whether in the boardroom, on the road, or at your workstation, keeping connected is a real challenge. We're excited to share the many solutions StarTech.com offers to maximize productivity in any situation.

We look forward to giving you the inside edge on connecting technology solutions and as always make **hard-to-find easy.**

Paul Seed
Founder & Chief Executive Officer
StarTech.com

Identify what you need

Not sure where to start? StarTech.com's user-friendly website and Tech Advisors will point you towards the best solution to solve your connectivity problems.

Find the right part

StarTech.com's website provides comprehensive information, powerful search and exclusive tools like the ConXit Connection Wizard that make finding the right part easy.

Get it delivered fast

Get the products you need when and where you need them through StarTech.com's global distribution network and channel partners.
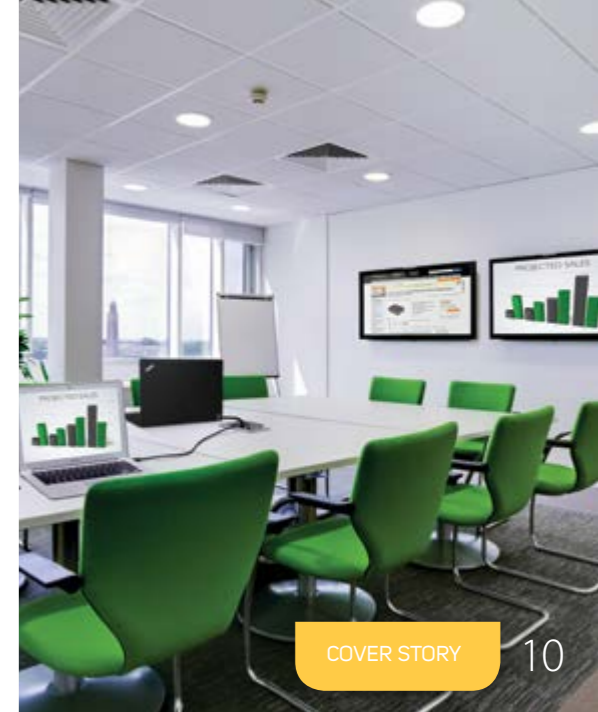

Use with confidence

User-friendly documentation and online resources make using our products a breeze, while innovative design maximizes reliability and performance.

8 Must-Have Connectivity Gadgets for
Road Warriors

Be prepared when you travel by bringing all the necessary accessories to stay connected and productive.

Convert

1 This handy **3-in-1 AV Adapter** ensures presentations go smoothly by connecting laptops to all popular types of projectors and monitors

MDP2VGDVHDW — White
MDP2VGDVHD — Black

Supports HDMI, VGA and DVI from a Mini DisplayPort source.

2 This **Compact HDMI to VGA Adapter** connects your laptop to VGA monitors and projectors.

HD2VGAMICRO

Dock

3 Transform any laptop into a powerful workstation and add the ports that you're missing with this **USB 3.0 Travel Dock for Laptops.**

USB3SMDOCKHV

Connect

Saves money on expensive Wi-Fi in hotels.

4 Create a portable wireless hotspot for all your Wi-Fi® enabled devices while travelling with the **Portable Wireless Travel Router.**

R150WN1X1T

" Genius "
— Forbes

5 Add Gigabit Ethernet capability to your laptop with this **USB 3.0 to Gigabit Ethernet Adapter.** Features an integrated USB 3.0 pass-through port.

USB31000SPTB — Black
USB31000SPTW — White

Charge

6 Fast charge mobile devices from your laptop's USB 2.0 port with this **Fast Charging Adapter.**

USB2CHADP

7 Charge your tablet and phone simultaneously while travelling internationally with this **2-Port USB Wall Charger.**

USB2PACBK — Black
USB2PACWH — White

Interchangeable plugs

8 Charge two mobile devices simultaneously on the road with this **Dual-Port Car Charger equipped with a USB port**

USBLT2PCARW — White
USBLT2PCARB — Black

Built-in Lightning cable

The Connected
Workstation

Saving space while maintaining full connectivity can be a tricky balance. We can help you win on both counts by integrating the right devices into your open concept office, hot desk, or busy workstation.

The StarTech.com Advantage:
- Create a flexible and efficient work environment
- Save space with optimized connectivity

Dock

1 Our wide range of **Laptop Docking Stations** includes different sizes and orientations, such as upright docks for saving space.

Model	Interface	
USB3SDOCKDD	USB 3.0	Desktop
TB2DOCK4KDHC	4 K Thunderbolt	Desktop
USB3SMDOCKHV	USB 3.0	Travel

Mount

2 Our **Articulating Monitor Arm** allows you to mount a display to the side of your desk with a wide range of adjustments, freeing up space.

ARMPIVOTE

Learn more about mounts on page 9.

Charge & Connect

3 This **USB 3.0 Hub & Charging Station** provides four hub and three charge ports. Mount the small enclosure on the wall or another surface, out of the way.

ST4300U3C3

4 This space-saving **Tablet & Phone Stand** provides three ports in a USB 3.0 hub, plus a fast charge port.

ST4300U3C1B — Black
ST4300U3C1 — White

5 Charge and sync most mobile devices anywhere you go with this **All-in-One Apple Lightning and Micro-USB Cable**.

LTUB1MBK

Improve Productivity with
Multiple Monitors

Upgrade to 4K

4K Ultra HD gives you astonishing picture quality that is particularly useful for detailed work like editing video or large spreadsheets.

USB 3.0 video adapters for 4K Ultra HD

USB32HD4K — HDMI
USB32DP4K — DisplayPort

- Enable a non-4K device to connect to a 4K display.
- DisplayLink 4K Plug-and-Display certified for automatic driver installation and updates.

The same screen real estate as four 1080p monitors.

Use an existing port

If you have a spare video or USB 3.0 port, it's easy and inexpensive to connect your computer to another monitor.

My computer has this port:	I want to connect to:			
	VGA	DVI	HDMI	DisplayPort
Mini DisplayPort or Thunderbolt	MDP2VGA2	MDP2DVI3	MDP2HDMI	MDP2DPMF6IN
DisplayPort	DP2VGA3	DP2DVI2	DP2HDMI2	DISPL2M
HDMI	HD2VGAE2	HDDVIMF8IN	HDMM2M	*Refer to ConXit
Micro HDMI	MCHD2VGAE2	HDDDVIMM1M	HDADFM5IN	*Refer to ConXit
Mini HDMI	MNHD2VGAE2	HDCDVIMM1M	HDACFM5IN	*Refer to ConXit
USB 3.0	USB32VGAES	USB32DVIEH	USB32HDES 1080p / USB32HD4K 4K Ultra HD	USB32DPES 1080p / USB32DP4K 4K Ultra HD

*You can find ConXit at **www.startech.com/uk/conxit**

Connect multiple monitors to one port

You can connect multiple monitors to a single USB 3.0 or Mini DisplayPort connection on your computer.

Connect up to 3 monitors through DisplayPort or Mini DisplayPort

MSTDP123DP — DisplayPort
MSTMDP123DP — Mini DisplayPort

These MST hubs can connect up to 3 DisplayPort enabled monitors to your computer.

Computer must support
DisplayPort 1.2
MST

Connect up to 2 monitors through USB 3.0

USB32HDDVII

Connect an HDMI and a DVI-I monitor to a USB 3.0 port.

Supports:
1080p HD

USB-C
The Next Generation of Connectivity is Here!

A new connector has arrived for computers, peripherals, and mobile devices: the USB-C™ connector. Also known as USB Type-C™, it is much more than just USB! **It consolidates the following functions over a single connector:**

| External Displays | Charging & Power | USB Data |

On new laptops, the innovative USB-C connector can replace DisplayPort connectors, proprietary power connectors, and bulkier traditional USB connectors. This allows for smaller, thinner, and lighter devices. Plus the USB-C connector is reversible, meaning that it works no matter which way you plug it in, saving you frustration and port damage!

Device manufacturers can choose to implement USB-C in a variety of ways. This can create challenges for IT professionals and end users connecting these new devices in existing environments. **StarTech.com can help.**

--- **USB-C** enables exciting new possibilities ---

Higher quality displays
Experience resolutions beyond 4K with DisplayPort over USB-C
Connect a computer to dual 4K Ultra HD displays
Enable multiple monitors with a single connector, using MST

Docking with ease
Increase productivity with true single-cable docking
Enable display, charging, power, networking, data, and audio with one connection

Universal charging & power
USB-C enabled laptops can be charged via the USB-C port, eliminating the need for proprietary power cords
Power & charge any USB-C enabled device with the same cable

Designed for the future
USB-C currently supports data speeds up to USB 3.1 (10 Gbps)
Designed to scale as faster data speeds evolve

--- Coming in **Summer 2015** ---
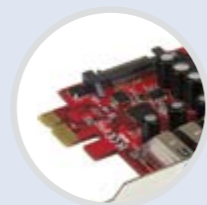

Exciting new USB-C products from StarTech.com

Neatly Store, Mount, and Control Your
Equipment

We provide equipment mounting and control solutions not only for the server room, but also for those areas that customers and the public visit, where elegance also matters. In the boardroom or the classroom, in the lobby or at your desk – or in the server room – **we can help you.**

Store

Quiet & Stylish Server Cabinet
RKWOODCAB12

Store IT equipment discreetly in the office or classroom. The insulation ensures minimal noise, while the fans and airflow design ensure maximum cooling. Plus, front and rear key-locks prevent unauthorized access.

12U Server Rack
**adjustable depth with open frame**
4POSTRACK12U

Store your servers, network, and telecommunications equipment in a sturdy 4-post rack. Offers easy-to-read markings for rack units and depth. Includes casters, levelers, and cable management hooks.

2U Server Rack Shelf
sliding and vented
UNISLDSHF192

Add a vented, sliding shelf with cable management into virtually any 4-post server rack or cabinet. With adjustable mounting depths.

For our full range of server management solutions please visit: **www.startech.com/uk/server-management**

Mount

Articulating Mounting Arm for Two Displays
ARMDUAL

Mount two displays to the side of your desk or table with a wide range of adjustment capability. For viewing long pages or blocks of code without scrolling. The dual arm also supports landscape to portrait display rotation for either monitor.

| Side by side Horizontal | Side by side Vertical | Horizontal | Side by side Vertical | Back to Back |

Control

2-Port KVM Switch with Fast Switching
SV231USBDDM

Control two USB-enabled computers using a single keyboard, mouse, and a VGA monitor. Switch between devices with minimal lag through fast-switching USB Dynamic Device Mapping (DDM) technology.

The Connected
Boardroom

Maximize productivity in meeting spaces by integrating the right connectivity solutions.

The StarTech.com Advantage:

- Enable quick & easy connections
- Create a professional, clutter-free environment
- Ensure compatibility with most laptops and devices

Connect & Convert

1 **The Conference Table Connectivity Box** reduces clutter by discreetly installing into your boardroom table. Conveniently connect laptops and other devices to displays or projectors. Provides connections for HDMI, VGA, mDP, composite AV, Ethernet and USB.
BOX4HDECP

"7 Gadgets to get you through your next presentation"
— **Inc.**

2 **Long-length HDMI cable** A large variety of options available including active & optical in lengths up to 30m.

Rated for in-wall installations

3 **CAT 6 Patch Cables** A complete selection of colours and lengths up to 30m.

ETL rated for guaranteed quality & reliability

Extend

4 Boost HDMI signal s up to 330 ft/100m with this **HDMI over Cat5e/6 Extender Kit.**
ST121HDBTPW

Includes mounting brackets

Charge

5 Keep mobile devices charged during meetings using our **7 Port USB Charging Station.**

Make Your
Signage **Vivid**

Digital signage is a **vivid** and easy-to-update way to display content such as text, information, images, and animation. You can use digital signage in offices, retail stores, public spaces, educational environments — **virtually anywhere.**

We offer many products to help you set up and connect your digital signage, including video wall solutions, switches, and wired/wireless extenders to keep your media sources out of sight. We can help you deliver your message in 4K Ultra HD for the highest resolution and clearest images, which is particularly valuable for larger signage.

Catch up on the latest
4K trends

4KHUB recently interviewed StarTech.com Senior Product Manager, **John Mardinly** about the future of 4K technology.

Extenders & Video Walls

4 Displays

Video Wall for up to 4 Displays

VS424HDPIP

Share and switch four distinct HDMI audio/video signals between four displays. Show multiple signals on the same display with Picture-and-Picture (PAP), or mix and match signals across multiple displays. Use this with our other products for more advanced multi-source and multi-panel video walls that you can control over IP.

100 Displays

Extender and Video Wall for Many Displays

ST12MHDLAN

As an extender, send an audio/video signal up to 100 displays on a single managed Gigabit network. Additional ST12MHDLANRX receivers required (sold separately). For video walls, use multiple transmitters and receivers to mix and match up to 64 signals on 64 displays.

Multiple Displays & **4K**

4K A/V Splitter for 2 Displays

ST122HD4KU

Send a 4K Ultra HD signal to 2 displays for beautiful and clear signage.

Cables & Accessories

We offer a full range of cables and adapters, including HDMI, VGA, Network, & DisplayPort. We also offer a full range of extenders, splitters, and switches.

Q

Where is 4K most implemented — what will take hold next year or after?

A. 4K is currently widely used for video/media production. Over the next year or two we should begin to see 4K video content more publicly available through television broadcasts and home video i.e Blu-ray discs. With most video production being done in 4K, it's the distribution and delivery that will need to be upgraded.

Q

What's going on from your perspective with all the latest tech and its adoption?

A. The new technology is great for computer users looking for higher resolutions, consumer electronics (TV and home video), and video production/editing. We expect the technology to become more mainstream in homes, corporate offices, retail (digital signage), and healthcare. Once the technology becomes mainstream this will have an increased demand in 4K video and content. Video production in 4K will become a standard.

Q

Where do you see the future of 4K heading?

A. 4K is coming quickly and we believe it will be widely adopted rapidly by viewers, video professionals, and broadcasting.

Maximize your
Network

With more and more devices connected to the Internet, the ability to extend your network, find open ports, and provide power becomes a constant concern. We offer a variety of products to upgrade your network connections on devices and expand your network indoors, between buildings, and outdoors.

Make the Most of
SSD Storage

Solid State Drive (SSD) storage gives you fast performance, a small form factor, quiet operation, and a long life span. We can help you connect to SSD in different setups, carry it on the go, and add it to your computers, devices, and server rooms.

Network Connectivity Identifier

Where you want to connect	**What** you want to do	**How** you can do it	**Why** choose this technology
Indoors Wired	Add 10-gigabit Ethernet to your computer with a PCI Express card.	**10-Gigabit Network Card** ST10000SPEX	Provides increased bandwidth using existing Cat 6a cabling, avoiding costly Fibre upgrades. Features significantly reduced power consumption compared to similar cards.
	Add a Gigabit Ethernet port and a USB 3.0 hub port to your Thunderbolt equipped computer.	**Thunderbolt to Gigabit Ethernet + USB 3.0 Adapter** TB2USB3GE	Connect to a wired, Gigabit Ethernet connection where wireless signals are limited or unavailable.
	Network up to five Ethernet devices through an energy-efficient gigabit switch.	**5-Port Gigabit Switch** DS51002GB	Designed for desktop or wall-mount installations.
Indoors Wireless	Add Wireless-AC connectivity to a computer.	**USB 3.0 Network Adapter for Dual-band Wireless AC** USB867WAC22	Provides exceptional speed and range when paired with an 802.11ac router.
	Create an indoor Wi-Fi® hotspot from an existing wired connection.	**In-Wall Wireless Access Point for 802.11b/g/n** AP300WN22WUE	Add a Wireless-N access point and two integrated RJ45 LAN and phone ports for wired network devices.
	Create multiple temporary accounts for guests to access your secure wireless network.	**Guest Access Point & Account Generator for Wireless N** R300WN22GAGB	Creates multiple temporary accounts for guests to access your secure wireless network, at the touch of a button. Features an integrated display.
Between Buildings	Extend a Gigabit Ethernet connection between buildings	**Gigabit Ethernet to LC Fibre Converter 550m** ET91000LC2	Delivers fast and reliable network access at longer distances than copper-based networks.
Outdoors	Add Wi-Fi to an outdoor area.	**Outdoor Access Points for a Wireless Network** R300WN22ODG 2.4GHz – IP67 R300WN22MO5G 5GHz – IP67 R300WN22OP5G 5GHz – long range	Weather-resistant enclosure. Includes pole and wall-mounting options. Power-over-Ethernet (PoE) means that you can install the access point where power is unavailable and also power other PoE devices.

70% faster

USB 3.0 Enclosure for SATA Storage
S2510BMU33

Turn any 2.5in SATA drive into an external drive. USB Attached SCSI Protocol (UASP) enables transfer speeds up to 70% faster than conventional USB 3.0. Aluminum housing. **No power adapter required.**

eSATA and USB 3.0 Duplicator and Dock for SATA Drives
SDOCK2U33RE

Clone a drive without a computer connection or dock the drives over USB 3.0 or eSATA for easy access.

*Offers the fastest sector-by-sector drive cloning available*
— NETWORKWORLD

70% faster

SATA to USB 3.0 Cable
USB3S2SAT3CB

Connect a 2.5in SATA drive to your computer. UASP enables transfer speeds up to 70% faster than conventional USB 3.0.

Dual 2.5in to 3.5in Bracket for SATA Drives
BRACKET25X2

Mount two 2.5in SATA drives in a single 3.5in drive bay. Cabling included. Solid steel construction.
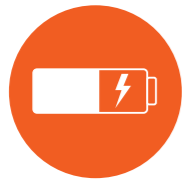

2-Port SATA Card for a HyperDuo RAID Array
PEXMSATA3422

Use this PCI Express card to connect additional SATA drives. Supports HyperDuo™ RAID technology so that you can combine SSD performance with HDD capacity.
