CONNECTIVITY
GUIDE

THE INSIDE EDGE ON CONNECTING TECHNOLOGY SOLUTIONS

Includes 3
Product Finders

Message from Paul

Welcome to our latest Connectivity Guide, a publication designed to keep you informed on the latest connectivity related technologies, trends and products that are important to IT professionals.

The momentum for USB-C adoption continues to build. This new connector type is now standard on many brands of devices including HP, Dell, Lenovo and Apple who have dropped legacy ports in favour of the new USB Type-C ports in some of their models.

By the end of 2017 it is estimated that over 50% of new laptops will have USB Type-C ports built-in. As technology users will need to connect their USB-C laptops to devices with older connector types, the need for adapters, cables and converters to bridge the new and older standards will rise.

To ensure you can always make your USB-C connection, our Market Research and Product Development teams have been hard at work identifying and creating the products you will want before you need them. We now have over 100 USB-C products available with new ones launching every week.

In this guide, you'll learn about unique solutions to maximize productivity and efficiency in environments ranging from the boardroom to the back office. We also feature the exclusive "Presentation Adapter", a new StarTech.com product that will ensure your presentations will never be interrupted again.

All the best,

Paul

What's Inside

The Modern Workstation:
Connectivity Meets Comfort

Our wide selection of docking stations, monitor mounts and charge hubs keep you connected and comfortable in any workspace configuration.

Connect to a workstation

Use a single USB-C cable to connect your laptop to a dual-monitor workstation along with additional devices.

USB-C Dual-Monitor Docking Station with Power Delivery.
MST30C2DPPD

Use the **Dual Monitor Mount** to create more work space with two monitors.
ARMDUAL

Looking for a single or triple monitor option?

Set up a compact work space that doesn't leave you short on connections with this **4K DisplayPort Docking Station.**
USB3VDOCK4DP

Use our space-saving **Cubicle Hanging Monitor Mount** for a single display.
ARMCBCL

Create a high-performance, ultra HD workstation with our **Triple Monitor Docking Station** which can support four displays, including one 4K DisplayPort.
USB3DOCKH2DP

Try our **Triple Monitor Desk Mount** to maximize desk space and productivity.
ARMTRIO

Power up

Use this **7-Port USB Hub** with 2 Fast Charge Ports to connect to the USB devices at your desk and fast charge your phone or tablet.
ST93007U2C

2 Fast Charge Ports

Work in comfort

Transition easily between sitting or standing and work more ergonomically with our **Sit-to-Stand Workstation**.
ARMSTS

Add a monitor

Keep a clean workstation and reduce costs by combining your cables and adapters. Use our video adapter cables to connect your device or docking station directly to a monitor.

A Flexible Workstation
Designed for Comfort

Our space-saving monitor mounts combine with our easy-adjustment sit-to-stand desks to make more comfortable and productive workstations.

This desk can support two monitor stands or arms, increasing overall productivity, comfort and employee health.

The large **Sit-to-Stand Workstation** is a cost-effective, adjustable and ergonomic solution for creating a more comfortable work area.

ARMSTSL

Easy to integrate into a traditional cubicle

Easy access to multiple screens helps you analyze complex documents, create killer code, or edit content quickly.

Free up desk space, customize monitor position and create an impressive workspace with our **multiple monitor mounts**.

ARMQUAD

ARMTRIO

ARMDUAL30

Why ergonomic solutions matter

Musculoskeletal disorders & cases accounted for **33%** of all worker injury and illness cases[1]

Estimated direct cost of absenteeism in CA/US/UK was 16.6 billion in 2012[2]

For every 100 employees, MSDs cost employers about $103,000 annually[3]

Reduce strain on your feet, knees, hips and back.

Premium Polyurethane

For added comfort and ergonomic support, add our new **Anti-Fatigue Mat**. The premium polyurethane offers a durable cushion to stand on.

STSMAT

This sturdy monitor mount gets your monitor off your desk.

Customize the position of your monitor with the **Desk-Mount Monitor Arm**.

ARMPIVOTHD

Easy height adjustments

Heavy duty aluminium construction

Built-in Drawer

Raise your monitor up to eye-level with our new **Height Adjustable Monitor Riser.**

Connect Any Device to Any Display

From legacy technology to cutting edge connectivity, StarTech.com brings you the widest selection of display adapters. Connect easily to multiple monitors for increased productivity or plug-and-play to any projector to ensure your next presentation goes smoothly.

Switch

NEW!

Introducing our new Presentation Adapter.

We keep your computer awake. The audience is up to you.

Our Presentation Adapter features a unique Presentation Mode switch that keeps your laptop awake while connected to a projector. This adapter is the perfect accessory for boardrooms where long meetings may cause laptops to go into power-save mode.

When the **switch** is turned on, the laptop display will not enter sleep mode.

HDMI	CDP2HD4K60SA
VGA	CDP2VGASA

Use adapter cables as a cost-effective and clutter-free way to connect your laptop or docking station directly to your monitor.

Mini DisplayPort to HDMI	MDP2HDMM2MB
DisplayPort to DVI	DP2DVIMM10
USB-C to DisplayPort	CDP2DPMM6B

(1) Display your DisplayPort enabled device to a VGA projector or monitor.
DP2VGA2

(2) Connect your laptop to an HDMI projector or monitor through the Mini DisplayPort port on your laptop.
MDP2HDMI

(3) Extend your USB-C laptop's screen to a VGA projector or monitor.
CDP2VGA

This sleek, **4-in-1 adapter** conveniently connects your USB-C computer to a VGA, DVI, HDMI®, or Mini DisplayPort display.
CDPVGDVHDMDP

Multiple monitors instantly boost productivity.

Connect your Thunderbolt 3 MacBook or Windows laptop to two high-resolution 4K60 DisplayPort monitors with our **Thunderbolt 3 to Dual DisplayPort Adapter**.
TB32DP2T

Maximize productivity with our **USB-C to DisplayPort Multi-Monitor Splitter** which allows you to connect your laptop to two monitors.
MSTCDP122DP

Connect your computer to four displays and make multi-tasking easier with this **DisplayPort to DisplayPort Multi-Monitor Splitter**.
MSTDP124DP

The Perfect Dock

Whatever your needs, we have a docking station for you.

Your unique workstation requirements demand versatility. Our broad universal docking station selection makes it easy to find the best way to turn any laptop into the ideal workstation solution.

Convenient, compatible connectivity

Create the ultimate high-performance workstation while charging your Thunderbolt 3 laptop. This **Thunderbolt™ 3 Dual-4K Docking Station** maximizes connectivity for your MacBook or Windows laptop.

TB3DK2DPPD

| 4K Dual Monitors | USB-C Power Delivery |

Take being productive to another level with our unique **USB-C Triple Monitor Docking Station**, which offers the ability to connect to three monitors while powering your laptop.

DK30CH2DPPD

| Triple Monitors | USB-C Power Delivery |

Expand your Thunderbolt 2 equipped MacBook to dual monitors and connect to additional devices with our **Thunderbolt 2 4K Docking Station**.

TB2DOCK4KDHC

| Dual Monitors |

This **WiGig Docking Station** gives you the option to dock your laptop wirelessly through WiGig® technology or through a USB-C cable connection.

DKWG30DPHPD

| WiGig Technology | Dual Monitors |

Multi-port adapters are the perfect on-the-go accessory for laptops

Power and charge your laptop, all while creating an instant workstation with our new **USB-C Multi-port Adapter with power delivery**.

Manage and Expand
Your Network

We offer a wide range of networking solutions that make it easy to connect to or expand your network reach.

From upgrading the wireless connection on your laptop to extending a wired signal between buildings, StarTech.com keeps you connected.

Add performance and reliability to your network.

Our SFPs are not only backed by a lifetime warranty and are fully compliant to MSA standards, but most importantly, match OEM brands in performance and reliability.

With our SFPs, you get:

- Exact OEM specifications
- MSA and industry standards
- Fully tested products to ensure performance
- Lifetime warranty with technical support
- Cost-savings when compared to OEM SFPs
- A brand you can trust

Cisco compatible 40G QSFP+	QSFP40GLR4ST
HP compatible 10G SFP+	J9150AST
Juniper compatible 10G SFP+	EXSFP10GESRS

See our full line of SFPs:
www.startech.com/au/SFPs

Connect to your network with confidence.

Confidently connect your network with our comprehensive line of networking cables.
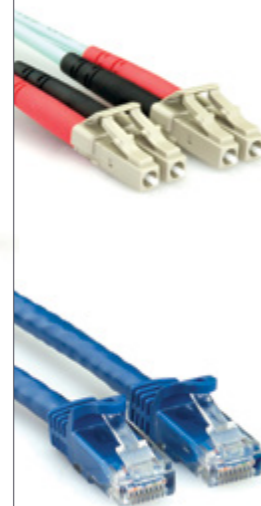

Our **fibre cables** deliver fast and reliable data transfers over your network.

A50FBLCLC2	10Gb Multimode Duplex Fibre Patch Cable
SMFIBLCLC1	1m Single Mode Duplex Fibre Patch Cable
FIBLCST3	3m Multimode Duplex Fibre Patch Cable

Use our wide range of **CAT6 patch cables** to make PoE-capable Gigabit network connections.

N6PATC3MBL	3m Blue
N6PATC50CMGR	50cm Grey
N6PATC2MGR	2m Grey

Networking cable features:

- Wide range of connector types and colours
- Various lengths
- Fully tested
- Backed by a lifetime warranty

View the full line of CAT6 and fibre cables:
www.startech.com/au/cables/network

Replace, upgrade or add a wired network connection.

Access reliable wired or wireless networks from anywhere with our wide range of laptop network adapters.

1	US1GC30B	USB-C to Gigabit Ethernet
2	USB31000S	USB-C to Gigabit Ethernet

USB Network adapter features:

- Simple network access for USB equipped devices
- Fast file transfers using true gigabit bandwidth support for gigabit ethernet (GbE) or fast ethernet (10/100) networks
- Extremely portable designs for when you're on the move

See our full line of laptop network adapters:
www.startech.com/au/usb-network-adapters

Scale, manage, or upgrade your network.

Use our selection of switches, extenders and NICs to efficiently manage your network equipment.

Deploy or scale networks by adding eight Gigabit Ethernet ports and two fibre SFP slots with this **Managed Switch**.
IES101G2SFPW

Use our **Gigabit Ethernet Copper-to-Fibre Media Converter** to convert and extend network connections up to 20 km.
ET91000SM20

Upgrade your server or workstation to 10G networking over copper with this **Network Card** that features the powerful Intel X550-AT Chip.
ST10000SPEXI

View the full line of network management solutions:

StarTech.com

Thunderbolt 3:
Powerful, Portable, Practical

Thunderbolt™3 is the single-cable I/O technology that can turn your laptop into a powerful workstation. It provides four times the data and twice the video bandwidth of any other cable, up to 100W of system charging, turning port limitations into connection capability.

Thunderbolt 3 is a all-in-one connection that combines every essential technology into a single port. It's the most capable connection to date, and with the right adapters and accessories, it's possibly the most convenient.

Thunderbolt 3 is the USB-C that does it all

Unprecedented performance

- 2 x 4K @60Hz (or single 5K display)
- 40 Gbps Bandwidth
- 10 GbE network connection between two Thunderbolt 3 computers
- 4x the data and 2x the video bandwidth of any other cable
- Laptop system charging up to 100W
- Add any PCIe card to a laptop
 * via Thunderbolt 3 PCIe chassis

Universal compatibility

A single port that can connect to Thunderbolt devices, every display (via adapters) and billions of USB devices.

USB-C connector

Uses the compact and reversible USB-C connector to power and charge a laptop. For more information on USB-C.

Bandwidth

Standard	Bandwidth
Thunderbolt 3 (includes USB 3.1)	40 Gbps
Thunderbolt 2	20 Gbps
Thunderbolt	10 Gbps
USB 3.1	10 Gbps
USB 3.0	5 Gbps
USB 2.0	480 Mbps

Thunderbolt 3 products from StarTech.com

Docking Stations

This **Thunderbolt 3 Dual 4K Docking Station with Power Delivery** maximizes connectivity for your MacBook or Windows laptop.
TB3DK2DPPD

View more: www.startech.com/au/tb3-docks

With Thunderbolt 3, you can:

- Access and edit large, uncompressed files such as videos and images on the fly, for dynamic on-site production
- Transfer a 4K movie in under 30 seconds, or 3 hours of 4K GoPro® video in less than a minute
- Edit 4K video on one display, with a full-size video preview on the second 4K display
- Dock and undock quickly, with a single cable for peripherals, dual 4K monitors, and laptop charging
- Daisy chain up to six devices

Display Adapters

Connect a MacBook Pro or Windows Thunderbolt 3 laptop to dual 4K displays at 60Hz with our **Thunderbolt 3 to Dual DisplayPort Adapter**.

Experience the
Performance of USB-C

A new connector has arrived for computers, peripherals, and mobile devices, the USB-C connector. Also known as USB Type-C, it's much more than just USB. **Unlike its predecessors, the USB-C connector offers an array of benefits:**

This **USB-C Triple Video Docking Station** enables you to connect to three 4K monitors, while charging your laptop.

DK30CH2DPPD

Triple Monitors

USB-C Power Delivery

Supports multiple technologies.

Perhaps the most important shift with USB-C is the ability to accommodate Alternate Modes. The Alt Mode spec allows for DisplayPort, HDMI, and Thunderbolt 3 protocols to be transferred over a USB connection.

Powers and charges your laptop.

USB-C can deliver up to 100W of power to compatible laptop systems. This makes it perfect for tablets and laptops.

USB-C Multiport Adapter with native video support, GbE and USB 3.0 ports.

DKT30CHPDW

Our unique **Presentation Adapters**, prevent your laptop from entering sleep mode during a presentation.

HDMI   **CDP2HD4K60SA**

VGA   **CDP2VGASA**

More bandwidth.

The connector supports bandwidths of 10Gbps using USB 3.1, and 40Gbps using Thunderbolt 3. For more information on Thunderbolt 3 see page 14.

Compact design and reversible.

The USB-C connector features a uniquely compact design that's perfect for any device (including mobile devices) and is reversible, which makes for easier connections.

USB-C supports USB 2.0 and USB 3.0 with the use of this **USB-C to USB-A Adapter**.

USB31CAADP

Take advantage of USB 3.1 10 Gbps speeds with this **USB-C to 2.5" SATA Adapter**.

USB31CSAT3CB

Given its capabilities, USB-C will be the world's most prevalent connector in the years to come. In fact, many popular laptops and phones have already switched to, or added USB-C ports.

With the most comprehensive product offering for USB-C connectivity, as well as trusted support worldwide, StarTech.com makes it easy to connect any USB-C device.

Did you know?
USB-C peripherals also work in your laptop's Thunderbolt 3 port.

Modern Meeting Rooms
Meet Convenient Connectivity

Set up a meeting space that will help you and your coworkers have seamless meetings and presentations.

⌨ Connect a laptop

The new **Presentation Adapter** is a unique accessory designed with the boardroom in mind.

1 Equipped with a "Presentation Mode" switch, this **USB-C Display Adapter** keeps your computer awake during long presentations.

`HDMI` CDP2HD4K60SA   `VGA` CDP2VGASA

Conveniently connect any laptop to an HDMI display or projector.

With the transition to USB-C laptops, make sure old and new models can connect with ease with our **Boardroom HDMI Converter Cable**.

CMDPHD2HD

`USB-C, HDMI, MINI DISPLAYPORT`

Cut down on clutter with this all-in-one solution.

2 The **Conference Table Box** enables a variety of A/V connectivity options like VGA, HDMI, and Mini DisplayPort.
