CONNECTIVITY
GUIDE

THE INSIDE EDGE ON CONNECTING TECHNOLOGY SOLUTIONS

Memories & Milestones

Earlier this year, we celebrated the grand opening of our state-of-the-art headquarters (complete with a new and improved Innovation Lab, and ample room to grow). I've taken some time to reflect on the memories that are a permanent reminder of the importance of our customers and partners who have been integral to getting us where we are today and who continue to help us stay on the cutting edge of connectivity trends.

As predicted last year, we saw the rapid adoption of USB Type-C as the dominant I/O profile in many leading laptops and devices, as well as the proliferation of Thunderbolt 3 as the protocol for high-performance data & video. This type of dramatic shift in the market is what truly energizes us and confirms our focus on our core strength of helping customers identify, find, get and use hard-to-find connectivity solutions.

Fostering relationships with key industry partners has positioned StarTech.com to be a market leader in bringing these exciting new technologies to market. Our Thunderbolt 3 products, including a Thunderbolt 3 Legacy Adapter and two Thunderbolt 3 Dual Display Adapters, were among the first to market, and provide users uncompromised performance, whether connecting to a new or a legacy eco-system.

This year, we celebrate the memories and milestones that form the foundation upon which we will build the future of StarTech.com, and we appreciate your partnership along our journey.

StarTech.com

Hard-to-find
Made Easy

StarTech.com makes it **easy** to enable and enhance your tech solutions, helping you every step of the way. **Here's how:**

Identify what you need

Not sure where to start? StarTech.com's user-friendly website and Tech Advisors will point you towards the best solution to solve your connectivity problems.

Find the right part

StarTech.com's website provides comprehensive information, powerful search and exclusive tools like the ConXit Connection Wizard that make finding the right part easy.

Get it delivered fast

Get the products you need when and where you need them through StarTech.com's global distribution network and channel partners.

Use with confidence

User-friendly documentation and online resources make using our products a breeze, while innovative design maximizes reliability and performance.

Need help making your connection?

Our advisors are available 24 HOURS* to help you identify, find, get and use the parts you need
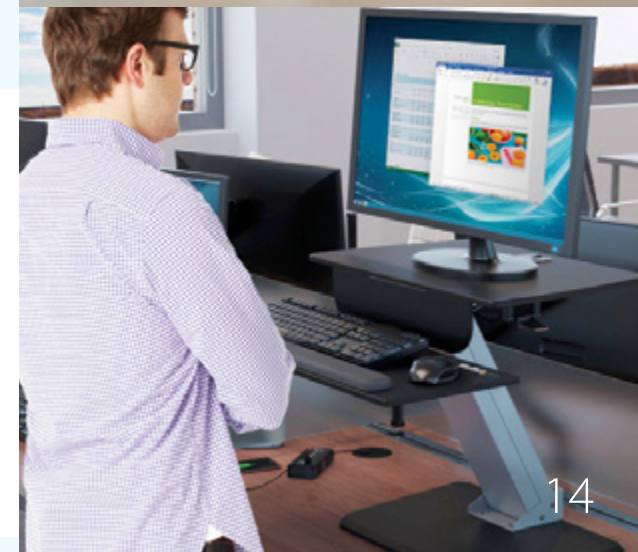

💬 Live Chat   ✉ Email   📞 Phone

*24 hour support available Sunday 9 PM (ET) - Friday 9 PM (ET)

Manage and Control
Digital Signage

With digital signage, you can display information, images and animation in an eye-catching way that will captivate and intrigue your customers to increase brand awareness and sales.

Free App

Manage signage from your smartphone

Creating a digital signage display or video wall can be a time-consuming and confusing process. **The Video Switching and Wall Control App** provides you with an easy-to-use interface to set up, control, and customize digital signage solutions. It automatically adjusts and configures content according to the setup, and enables you to control and change the content to create your ideal solution.
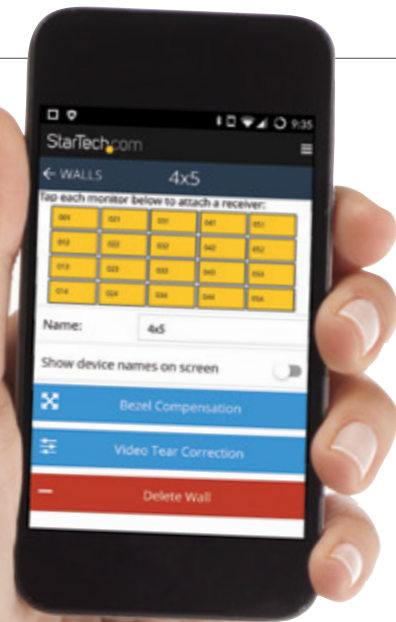

Designed to work with our HDMI over IP Distribution Kit

Set up a video wall with ease

You can put together a complete digital signage setup with this **HDMI® Over IP Distribution Kit**. These products work together to send HDMI audio/video signals over a network, to up to 100 displays. You can configure and control the video wall with our **mobile app**.

ST12MHDLAN & ST12MHDLANRX

Our **HDBaseT Extenders** are perfect for extending HDMI signals from one source to one display. They can support the astonishing picture quality of 4K, which is four times the resolution of high-definition 1080p, at up to 100m.

ST121HDBTE	70m	
ST121HDBTPW	100m	Ultra HD **4K**

HDBaseT is a standardized, zero latency, video distribution technology that's revolutionizing HDMI distribution.

HDBaseT uses an advanced method of modulation that enables you to distribute uncompressed HDMI audio and video, along with additional signals such as 100BaseT Ethernet, IR, RS-232 serial and power over cable.

Your Devices. Our Docks:
A Perfect Match

From best-in-class to on-the-go performance, we offer the most comprehensive selection of laptop docking stations. And they're universal, so you can use them with almost any make or model of laptop and many tablets.

Go **Universal** and Unleash Your Laptop's Full Potential

Connectivity

Reduce connectivity limitations with our docking stations by adding ports to a port-limited laptop.

Convenience

A single-cable host connection offers a sleek solution for a well-organized workstation.

Compatibility

Universal docking stations solve compatibility issues by letting you use the same dock with different laptops.

Specialty

For the user that has **unique needs** such as requiring three monitors or a workstation with two laptops.

Triple Monitor Docking Station

Create a high-performance, high-resolution workstation with four displays in total, including one 4K DisplayPort™ display with the Triple Monitor Docking Station.

USB3DOCKH2DP

Essential

Docks that offer all the essential ports for connections at a **multi-user workstation**.

4K DisplayPort Docking Station

Set up a compact work space with this 4K DisplayPort Docking Station, which doesn't leave you short on port connections.

USB3VDOCK4DP

Professional

For the user that needs to turn a laptop into a full, modern workstation to **maximize productivity**.

Dual Monitor USB-C Docking Station

Dock your new USB-C laptop with our Dual Monitor USB-C Docking Station and add more ports and displays.

MST30C2DPPD

Need to connect on the go?

Try our **USB-C Multi-Function Adapter** to connect to displays and networks.

Experience the Performance of

USB-C & Thunderbolt 3

The USB-C™ connector offers an array of benefits beyond traditional USB. Coupled with Thunderbolt™ 3, it's the ultimate game changer in how we think about connectivity and performance.
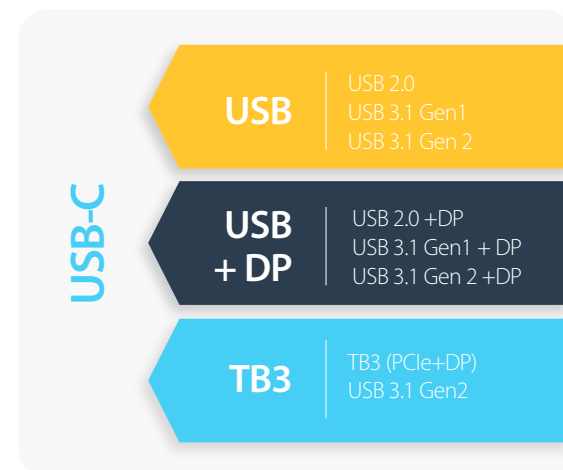

The USB Type-C™ connector is small and compact, making it ideal for the latest laptop and mobile devices. It's conveniently reversible, so you can connect it easily the first time, saving you frustration and possible port damage. Despite its small size, this connector packs a punch - it's the only connector that can deliver Thunderbolt 3.

Power and charge your laptop through USB Type-C (5Gbps), and create an MST based, dual-monitor workstation with our **USB-C Dual Monitor Docking Station**.
MST30C2DPPD

What's causing confusion?

USB-C represents a significant shift in traditional USB capabilities. The most confusing aspect of USB-C is protocols it supports. USB-C can support data, video (DisplayPort), and Thunderbolt 3, but all of these protocols are not available all of the time. It's important to research your device, port, and cable capabilities to understand the differences.

USB-C

USB	USB 2.0 USB 3.1 Gen1 USB 3.1 Gen 2
USB + DP	USB 2.0 +DP USB 3.1 Gen1 + DP USB 3.1 Gen 2 +DP
TB3	TB3 (PCIe+DP) USB 3.1 Gen2

Thunderbolt 3: More speed, more pixels, more power and more protocols - all in one technology.

NEW!

Add ports and displays, and connect to additional devices with our **Thunderbolt 3 Dual 4K Docking Station**.
TB3DK2DPW

Extend your Thunderbolt 3 laptop to two high resolution displays with **Thunderbolt 3 Dual Display Adapters**.

TB32HD2	HDMI	Dual 4K video
TB32DP2	DisplayPort	Single 5K monitor

Use first-generation Thunderbolt and Thunderbolt 2 devices with your new Thunderbolt 3 computer or laptop with this **Legacy Adapter**.
TBT3TBTADAP

USB-C: The Next Generation of Connectivity

Setup a functional workstation wherever you are with a **USB-C Multifunction Adapter**.
DKT30CHV

Connect USB-C equipped laptops to virtually any display, monitor or projector with our **USB-C Display Adapters**.

CDPVGDVHDMDP	VGA DVI HDMI Mini DP
CDP2VGA	VGA
CDP2HD	HDMI
CDP2DVI	DVI

USB-C can support: USB 3.1 and 2.0   Power delivery   DisplayPort 1.2   Thunderbolt 3

A Flexible Workstation
Designed for Comfort

Free up desk space, adjust monitors, and get moving at your workstation so that you can work in comfort and increase productivity.

Sitting less and standing more has tremendous benefits to overall health and productivity, including less back and neck pain and reduced MSDs (musculoskeletal disorders).

The best solution for standing more is a sit-to-stand workstation that lets you change your position throughout the day.

Musculoskeletal disorders & cases accounted for **33%** of all worker injury and illness cases[1]

Estimated direct cost of absenteeism in CA/US/UK was 16.6 billion in 2012[2]

For every 100 employees, MSDs cost employers about $103,000 annually[3]

1 Our **Sit-to-Stand Workstation** turns your current desk into a height-adjustable work space with an easy adjustment feature.
ARMSTS

2 Mount a display with a **monitor arm** for easy movement and adjustment.
ARMDUAL

Get monitors up and off your desk to free up work space. Whether in a cubicle or an office, we've got the solution to create a clutter-free and comfortable workstation.

Cubicle Hanger Monitor Mount
Maximize the available work space on your employee's desk, by mounting the monitor on the cubicle wall.
ARMCBCL

Wallmount Monitor Arm
Wall mount a monitor to save space, and adjust your viewing angle with spring-assisted height adjustment.
ARMPIVWALL

Do More with Your Tablet
We offer a full range of adjustable and secure tablet mounts, which allow you to get the most out of your tablet.

Position an iPad in our secure **Lockable Floor Stand for iPads**.
STNDTBLT1FS

Mount a tablet on a desk with this **Desk Mountable Tablet Stand**.
