## Introduction

The 1UCABCONS and 1UCABCONS17 consoles offer the ultimate in computer management. With a keyboard, mouse, TFT LCD panel housed in an industry standard 19" 1U-height rack drawer, they save you up to 1/3 of valuable server rack cabinet space. Better yet, when the consoles are cascaded with other console KVM switches to increase server management capacity, you save even more.

### *Console*

It saves you up to 1/3 of valuable rack cabinet spaces and acts as a space-saving console with keyboard, mouse and monitor. It can be connected to a computer directly or to the console ports of a KVM switch.

### *Console with One-Console KVM Module*

This powerful combination allows you to access multiple computers from **one** keyboard, mouse and monitor on the integrated drawer. Operation is as simple as pressing push buttons, entering hot-key commands and navigating through the user-friendly OSD (on-screen display) menu. You can connect StarTech.com's CAB831D, CAB1631D, CAB831HD, or CAB1631HD KVM switches.

### *Console with Two-Console KVM Module*

The 1UCABCONS/1UCABCONS17 combined with an advanced multi-access KVM Switch enables you to control multiple computers from one out of **two** different locations, **Local** as the console or **Remote** as another set of keyboard, mouse and monitor. The CAB832DS controls 8 computers.

## Overview

The 1UCABCONS and 1UCABCONS17 console are 19" 1U drawer designed for applications where space is at a premium. The console, consisting of a display, keyboard, and touch pad, fits into just 1U of space. The 1UCABCONS17 features a 17" flat panel Active Matrix TFT display with resolution of 1280 x 1024. The 1UCABCONS features a 15" TFT display with resolution of 1024 x 768. The drawer can be pulled out for operation from the rack on slides that latch in the extended position. When not in use, the display can be folded down, locked, and secured while pushed in. With different *Rear bracket & extension kit*, the console can be mounted on rack cabinet of various depths. The console comes with standard PS/2 keyboard connector, PS/2 mouse connector and HDB15 VGA connector for computer or KVM switch connection.

## Packing List

The following are required to install the console:

- ***IUCABCONS or IUCABCONS17 Console:*** assembled "LCD panel + keyboard + mouse pad" drawer

- ***Rear bracket & extension kit:*** This kit contains two pieces of rear brackets and two pieces of aluminum extensions. Make sure you have the correct kit to fit the depth of your cabinet.

**Note:** the following length is measured between "front pole and rear pole *inside* a rack cabinet" not the *outside* depth of a rack.

### Front Pole to Rear Pole Distance

	<i>Cm</i>	inch	<i>cm</i>	inch
Minimum	67.5	26 <sup>5</sup> / <sub>8</sub>	57.5	22 <sup>5</sup> / <sub>8</sub>
Maximum	80.5	31 <sup>5</sup> / <sub>8</sub>	70.5	27 <sup>3</sup> / <sub>4</sub>

## Assembly

1. Choose a proper position for the rack drawer. Mount the rear brackets (from the *Rear bracket & extension kit*), and lightly fasten them onto the rear vertical poles. Both will be removed later.

2. Remove the *stopper* from the assembled drawer. The *safety stopper* is designed to stop the drawer from sliding out during transportation.

### **Warning**

After the *safety stopper* is carefully removed, the drawer may slide out when tilted and could cause serious injury.

3. Slide the assembled drawer into the rack cabinet from the front and insert the two slide rails of the assembled drawer into the pockets of the rear brackets.

4. Fasten the assembled drawer onto the front brackets using the four screws provided.

5. Remove both of the rear brackets. The front brackets now hold the assembled drawer.

6. Attach the aluminum extensions (from the *Rear bracket & extension kit*) to both sides of the KVM module box. Please note the length of the aluminum extensions and mount them in one of the following ways.

Short aluminum extensions attachment

Long aluminum extensions attachment

wider side of the aluminum extension on top

7. The rear brackets, aluminum extensions and slide rails have tight fit. Make sure you follow these steps for easy installation. **A.** Slide the rear brackets onto the aluminum extensions. **B.** Insert both sliding rails of the assembled drawer into the tight space formed by the rear brackets and the aluminum extensions. The KVM module should be pushed in *evenly* on both right and left sides.

B

**8.** Push the rear brackets all the way in and fasten them.

**9.** Slide the assembled drawer out. Push the KVM module box *evenly* toward the drawer, and then lock both units by the screws.

**10.** Make sure the C-36 connectors are firmly connected during step 10.

**11.** Connect the power supply to the power jack on the KVM module to complete the installation.

## Installation

Consider the console as a set of keyboard, mouse and monitor, and connect it directly to a computer with the 1 to 1 KVM module.

Or, the console with the 1 to 1 KVM module can be connected to a KVM switch as shown below.
