Compliance Statements

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna
• Increase the separation between the equipment and receiver
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
• Consult the dealer or an experienced radio/TV technician for help

Industry Canada Statement

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.

CAN ICES-3 (B)/NMB-3(B)

Use of Trademarks, Registered Trademarks, and other Protected Names and Symbols

This manual may make reference to trademarks, registered trademarks, and other protected names and/or symbols of third-party companies not related in any way to StarTech.com. Where they occur these references are for illustrative purposes only and do not represent an endorsement of a product or service by StarTech.com, or an endorsement of the product(s) to which this manual applies by the third-party company in question. Regardless of any direct acknowledgement elsewhere in the body of this document, StarTech.com hereby acknowledges that all trademarks, registered trademarks, service marks, and other protected names and/or symbols contained in this manual and related documents are the property of their respective holders.
Safety Statements

Safety Measures
- Wiring terminations should not be made with the product and/or electric lines under power.
- Cables (including power and charging cables) should be placed and routed to avoid creating electric, tripping or safety hazards.

Mesures de sécurité
- Les terminaisons de câblage ne doivent pas être effectuées lorsque le produit et/ou les câbles électriques sont sous tension.
- Les câbles (y compris les câbles d’alimentation et de chargement) doivent être placés et acheminés de façon à éviter tout risque électrique, de chute ou de sécurité

安全対策
- 電源が入っている状態の製品または電線の終端処理を行わないでください。
- ケーブル（電源ケーブルと充電ケーブルを含む）は、適切な配置と引き回しを行い、電気障害やつまづきの危険性など、安全上のリスクを回避するようにしてください。

Misure di sicurezza
- I terminiali dei fili elettrici non devono essere realizzate con il prodotto e/o le linee elettriche sotto tensione.
- I cavi (inclusi i cavi di alimentazione e di ricarica) devono essere posizionati e stesi in modo da evitare pericoli di inciampo, rischi di scosse elettriche o pericoli per la sicurezza.

Säkerhetsåtgärder
- Montering av kabelavslutningar får inte göras när produkten och/eller elledningarna är strömförda.
- Kablar (inkusive elkablar och laddningskablar) ska dras och placeras på så sätt att risk för snubbingsolyckor och andra olyckor kan undvikas.

Product Information

Packaging Contents

• Serial over IP Device Server x 1
• DIN Rail Kit x 1
• Terminal Block x 1
• Universal Power Adapter (NA/UK/EU) and AU in Australia x 1
• Software CD x 1
• User Manual x 1

System Requirements

Cables
• RJ45 terminated Cat5 or higher Ethernet cabling

Network
• 10/100Mbps compatible Ethernet network

Operating System
• Windows® 8, 8.1, 7, Vista, XP, 2000, Windows® Server 2012, 2008 R2, 2003 or Linux (The included software does not support Linux. To emulate a local COM port Linux users would need to use Telnet.).
Hardware Installation

DIN-Rail Bracket

Follow the below procedure to install the DIN-Rail Bracket to the RS232 Device Server.

1. Align the DIN-Rail Bracket flush onto the back of the Device Server.

2. Align the DIN-Rail Bracket Mounting Holes with the Pilot Holes on the Device Server and use the Screws (x 2) to secure the DIN-Rail Bracket to the Device Server.

![Installing the Din Rail Bracket]

DIN-Rail Mounting

Follow the below procedure to mount the device server to a DIN-Rail.

1. Tilt the Device Server, making sure that the Metal Spring located at the back is positioned on top of the DIN-Rail.

2. Push the Device Server towards the DIN-Rail, until it clicks.
Connecting to Terminal Block Power

The Device Server is powered by either the Universal Power Adapter (included), or a 2-wire 10~30V DC Power Source via the Terminal Block (included).

1. Attach the included Universal Power Adapter to an AC Electrical Outlet.

   - or -

2. To use terminal block power, gently pull the Terminal Block Connector Housing from the Device Server.

3. Using a Flat Head Screwdriver, loosen the Screws on the Terminal Block Connectors.

4. Connect the Power and Ground wires from your DC Power Source to the proper Terminal Block Connectors and fasten the Screws. The terminals are marked on the device server housing.

5. Reinsert the Terminal Block Connector Housing into the Device Server.

Software Installation

1. Using a CAT5e/6 Cable connect the RJ45 Port on the Device Server to your Local Area Network (LAN).

   Note: Alternatively, you can also use a Crossover Cable to connect the Device Server directly to your system for the initial configuration.

2. Insert the provided CD into your DVD/CD-ROM drive.
3. Browse to the folder `VCOM driver` and execute the `vcomsetup.exe` installer.

   ![Browse to the VCOM Drive Folder]

   *Browse to the VCOM Drive Folder*

4. Follow the on-screen instructions to complete the installation of the **VCOM** and **WinPcap** software.

**Operation**

1. Start the software by launching the **VCOM** shortcut.

2. Click the **Search** button in the **VCOM** screen to locate the device.
Click the Search Button

**Note:** If required, allow access to the software through the Windows Firewall by clicking the Allow access button.

![Windows Firewall screen](image)
3. When the device is found, configure the PC to the same IP domain by clicking the **Configure** button. The default IP address of the device is “192.168.1.1”.

   **Note:** The default Gateway Address is “192.168.1.254”.

4. In the **Input Attributes** screen, enter the following:
   - **Account Name:** admin
   - **Password:** 00000

5. When the device is connected, the **Configure Dialog** screen will open to set your desired IP settings.
Configure Dialog screen

6. When your settings have been customized, click the **OK** button at the bottom of the screen.

Hard-to-find made easy. At StarTech.com, that isn’t a slogan. It’s a promise.

StarTech.com is your one-stop source for every connectivity part you need. From the latest technology to legacy products — and all the parts that bridge the old and new — we can help you find the parts that connect your solutions.

We make it easy to locate the parts, and we quickly deliver them wherever they need to go. Just talk to one of our tech advisors or visit our website. You’ll be connected to the products you need in no time.

Visit www.startech.com for complete information on all StarTech.com products and to access exclusive resources and time-saving tools.

StarTech.com is an ISO 9001 Registered manufacturer of connectivity and technology parts. StarTech.com was founded in 1985 and has operations in the United States, Canada, the United Kingdom and Taiwan servicing a worldwide market.
