Requirements

For the latest requirements, please visit www.startech.com/ST10GSPEXNB.

- PCI Express enabled computer with an available PCI Express slot (x4, x8, or x16)
- Operating systems:
 - Windows® 10, 8.1, 8, 7, Windows Server® 2012, Windows Server 2008 R2
 - Mac OSX 10.14, 10.13, 10.12

Installation

Install the PCI Express Card

Warnings! PCI Express cards can be severely damaged by static electricity. Make sure that you are properly grounded before you open your computer case or touch your PCI Express card.

Only handle the PCI Express card by its edges and don't touch the gold connectors.

1. Turn off your computer and any peripherals that are connected to it (for example, printers, external hard drives, and so on).
2. Unplug the power cable from the back of your computer.
3. Disconnect any peripheral devices that are connected to your computer.
4. Remove the cover from your computer case. Consult the documentation that came with your computer for details about how to do this safely.
5. Locate an open PCI Express slot and remove the corresponding metal cover plate from the back of your computer case. Consult the documentation that came with your computer for details about how to do this safely. This card works in PCI Express slots of additional lanes (x4, x8, or x16 slots).
6. Gently insert the card into the open PCI Express slot and fasten the bracket to the back of the case.

Note: If you install the card into a small form factor or a low-profile desktop system, it may be necessary to replace the pre-installed standard profile bracket with the included low-profile (half-height) installation bracket.
7. Place the cover back onto your computer case.
8. Reconnect the power cable to the back of your computer.
9. Reconnect all of the peripheral devices that you disconnected in step 3.
10. Turn on your computer and peripherals.

Install the Driver (Windows)

1. If the Found New Hardware dialog box appears when you turn on your computer after installing the network card, close or cancel the dialog box.
2. Insert the provided driver CD into your computer.
3. On the Ethernet Adapter screen, click Install Driver.
4. On the Install Driver screen, click PCIe 10G.

- Click Install and follow the on-screen instructions to finish installing the driver.

Verify Driver Installation (Windows)

- On your computer, navigate to **Device Manager**.
- Under **Network adapters**, right-click **TN4010 10GBase-T Ethernet Network Card** and click **Properties**.
- Confirm that the driver is installed and working as expected.

Install the Driver (macOS)

- On your computer, open an Internet browser and navigate to www.startech.com/ST10GSPEXNB.
- Click the **Support** tab.
- Under **Driver(s)**, download the driver for your operating system.
- Follow the on-screen instructions to finish installing the driver.

Verify Driver Installation (macOS)

- On your computer, in the **finderbar**, click the **Apple** icon.
- Click **About This Mac > System Report > PCI Cards**.
- Check to make sure that **Yes** is listed next to **Driver Installed**.

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by StarTech.com could void the user's authority to operate the equipment.
