About USB 3.0 and USB 3.1 Gen 1

USB 3.0 is also known as USB 3.1 Gen 1. This connectivity standard offers speeds up to 5Gbps.

Note: Data transfer rates are dependent upon the speed of the memory card you are using and the speed capabilities of the USB port on your host device.

Card support

The MSDREADU3C supports the following card types:

- microSD
- T-Flash

Use the MSDREADU3C

1. Remove the **Slot cover** from the end of the MSDREADU3C.
2. Gently slide a microSD card into the **microSD card slot** on the USB card reader until you feel resistance and the card is fully inserted.
3. Replace the **Slot cover** onto the end of the USB card reader.
4. Insert the **USB-C plug** on the USB card reader into the USB port on your computer, tablet, or device.
5. Follow the instructions specific to the OS that you're running to access content on the USB card reader.

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by StarTech.com could void the user's authority to operate the equipment.

Industry Canada Statement

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe [B] est conforme à la norme NMB-003 du Canada.
