FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- · Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Use of Trademarks, Registered Trademarks, and other Protected Names and Symbols

This manual may make reference to trademarks, registered trademarks, and other protected names and/or symbols of third-party companies not related in any way to StarTech.com. Where they occur these references are for illustrative purposes only and do not represent an endorsement of a product or service by StarTech.com, or an endorsement of the product(s) to which this manual applies by the third-party company in question. Regardless of any direct acknowledgement elsewhere in the body of this document, StarTech.com hereby acknowledges that all trademarks, registered trademarks, service marks, and other protected names and/or symbols contained in this manual and related documents are the property of their respective holders.

Introduction

The StarTech.com hybrid 2.5" USB 2.0 to IDE/SATA Hard Drive Enclosure lets you turn almost any 2.5" laptop hard drive into a portable storage device. Compatible with both IDE or SATA (1.5/3.0Gbps) hard drives, the enclosure offers a cost-effective and convenient choice for a variety of uses including data backups, extra data storage, or simply putting an "outdated" drive to good use.

Packaging Contents

- UNI2510U2V enclosure
- USB 2.0 split "Y" cable
- Software Installation CD
- Instruction Manual

System Requirements

- 2.5" IDE or SATA 1.5/3.0Gbps hard drive
- USB enabled computer system
- Microsoft[®] Windows[®] 2000/XP/Server 2003/Vista/7/Server 2008 (32/64-bit), or Apple[®] Mac OS[®] 9.2 or later, or Linux[®]

Installation

WARNING: Hard drives require careful handling, especially when being transported. If you are not careful with your hard disk, lost data may result. Always handle your hard drive and storage device with caution.

Hardware Installation

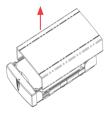

1. Slide the latch on the bottom of the enclosure to release the top cover.

2. Slide the top cover of the enclosure towards the rear.

3. Remove the top cover by lifting it up off the bottom portion of the enclosure (drive tray).

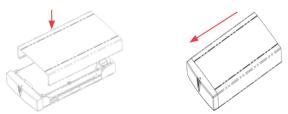

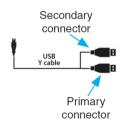

4. Place the 2.5" hard drive into the drive tray and slide it into the connector firmly. If using an IDE hard drive, the connector is located towards the front of the drive tray, while the SATA drive connectors are located towards the rear of the drive tray.

Place the top cover of the enclosure back onto the drive tray. Slide the top cover towards the front of the enclosure and lock into place by sliding the latch on the bottom to the lock position.

6. Connect the USB "Y" cable from the enclosure into the host computer system. Make sure at least the Primary connector is plugged into the computer. If the drive does not seem to get enough power, plug in the Secondary connector as well.

Driver Installation

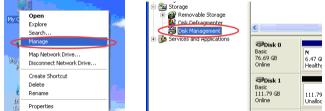

Windows 2000/XP/Vista/7, Mac OS 9.2+, and Linux

No driver installation is required for these operating systems, as this enclosure is natively supported, so the drivers are already installed.

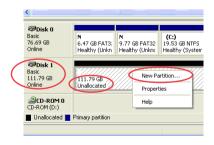

Using the Storage Device

Windows 2000/XP/Server 2003/Vista/7/Server 2008

If you are using a brand new hard drive that does not contain any data, then you will first need to prepare the hard drive for use. From the main desktop, right-click on "My Computer" ("Computer" in Vista/7), then select Manage. In the new Computer Management window, select Disk Management from the left window panel.

Locate the Disk that says it is "Unallocated" (check hard drive capacity to confirm it's the correct hard drive) and then right-click in the section that says "Unallocated" and select "New Partition".

The New Partition Wizard will appear. Follow the instructions in the wizard to complete setting up the drive. Once complete, the Disk should show up as "Healthy" with a drive letter assigned (i.e. E:). This drive letter should now appear within My Computer.

If you are installing a hard drive that already has data on it, then after plugging it in, the drive should automatically show up with a drive letter assigned within My Computer.

Specifications

Bus Interface	USB 2.0
Connectors	1 x USB mini-B
Chipset ID	JMicron JM20337
LEDs	1 x Power/Activity
Maximum Data Transfer Rate	USB 2.0: 480Mbps
Compatible Hard Drives	2.5" EIDE or SATA 1.5/3.0Gbps, 9.5mm height
Power Adapter	N/A
Dimensions	133.0mm x 78.0mm x 19.0mm
Weight	130g
Compatible Operating Systems	Windows 2000/XP/Server 2003/Vista/7/Server 2008 (32/64-bit), Mac OS 9.2 or later, Linux

Warranty Information

This product is backed by a two year warranty.

In addition, StarTech.com warrants its products against defects in materials and workmanship for the periods noted, following the initial date of purchase. During this period, the products may be returned for repair, or replacement with equivalent products at our discretion. The warranty covers parts and labor costs only. StarTech.com does not warrant its products from defects or damages arising from misuse, abuse, alteration, or normal wear and tear.

Limitation of Liability

In no event shall the liability of StarTech.com Ltd. and StarTech.com USA LLP (or their officers, directors, employees or agents) for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of or related to the use of the product exceed the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.
